Dear Judge Hammond 2008 CF-1007

On Tuesday March 10th 2009, I prepared to start my three year trip to prison for the car accident that killed my best friend, Bo Rossie. Thank you sir for seeing the kindness in my heart and also for recognizing this as what it was, an accident. If I was able to give my life for Bos, I would in a second. I still have a long road ahead of me, yet through this, I will become a stronger, more wise human being. I will take from this all the good that I can and leave behind me the bad. With any luck I will leave prison with either a college degree, a trade or both. In three years time my debt to society shall be paid. However, the debt to Bo and to his family I will carry forever. I long for my day to be released, so I can then start to honor my friends death with hard works and good deeds. I will not let Bo's death go unhonored. I tell myself everyday "This to shall pass". Not to undermine your sentencing or your judgement, I will be applying for clemency for either a full pardon or a commutation of sentence in June. Only so I may continue my education towards becoming a teacher and to also have some of this burden lifted from my shoulders. Again, thank you sir for having mercy on me. I promise to do great things in this spared life of mine. If there is anything more that you could do for me, A modified sentence, time served or anything whatsoever, it would be greatly appreciated and much needed. Even words of advice would not only help, but they to, would give me strength.

Case: 2008 CF 001007
