CHARGES: PENDING		

Narrative:

Preliminary investigative findings indicate that V01 was traveling north on I95 in the inside lane. V02 was traveling north on I95 in the outside lane. The drivers of V01 and V02 attempted to change lanes into the I95 middle lane at the same time. According to an independent witness, V02 was further into the middle lane than V01. The driver of V02 steered his vehicle back into the outside lane. The driver of V01 over corrected while attempting to steer his vehicle. As a result, V01 veered across the northbound lanes of I95. V01 then rolled over multiple times. V01 continued off of I95 into the grass area east of I95. V01 came to final rest on it's roof in the grass, east of I95, facing west. V02 was driven by it's driver onto the I95 northbound inside shoulder and came to a controlled stop. The Flagler County Sheriff's Office

and Flagler County Fire Police assisted with traffic control. All northbound lanes of I95 were re opened at 6:45 PM hours.
