Florida's February Employment Figures Released <u>www.employflorida.com</u>

TALLAHASSEE – Florida's seasonally adjusted unemployment rate was 6.2 percent in February 2014, unchanged from the January 2014 revised rate, and down 1.7 percentage points from 7.9 percent a year ago. The state's February rate was the lowest since June 2008 when it was 6.0 percent. There were 588,000 jobless Floridians out of a labor force of 9,515,000. The U.S. unemployment rate was 6.7 percent in February. Florida's unemployment rate was 0.5 percentage point lower than the U.S. rate and was below the national rate for the seventh consecutive month.

Florida's seasonally adjusted total nonagricultural employment was 7,718,500 in February 2014, an increase of 33,400 jobs (+0.4 percent) over the month. Compared to February a year ago, the number of jobs in the state was up by 211,500, an increase of 2.8 percent. Nationally, the number of jobs was up 1.6 percent over the year. Florida's annual job growth rate has exceeded or been equal to the nation's rate since March 2012.

United States and Florida Unemployment Rates (seasonally adjusted)

Florida's Nonagricultural Employment by Industry (Seasonally Adjusted)

- The number of jobs in Florida was 7,718,500 in February 2014, up 211,500 jobs compared to a year ago. February 2014 was the 43rd consecutive month with positive annual job growth after the state lost jobs for over three years. The industry gaining the most jobs was trade, transportation, and utilities (+48,400 jobs, +3.1 percent).
- Other industries gaining jobs included professional and business services (+47,900 jobs, +4.3 percent); construction (+39,200 jobs, +11.0 percent); leisure and hospitality (+35,700 jobs, +3.5 percent); private education and health services (+15,400 jobs, +1.4 percent); financial activities (+12,300 jobs, +2.4 percent); manufacturing (+8,600 jobs, +2.7 percent); other services (+3,000 jobs, +1.0 percent); and information (+2,000 jobs, +1.5 percent).
- These industry job gains were partially due to increases in food and beverage stores; services to buildings and dwellings; specialty trade contractors; food services and drinking places; ambulatory health care services; insurance carriers and related activities; fabricated metal product manufacturing; personal and laundry services; and telecommunications.
- Total government (-1,000 jobs, -0.1 percent) lost jobs over the year. These losses were partially due to federal and state government.

Local Area Unemployment Statistics (Not Seasonally Adjusted)

- In February 2014, Monroe County had the state's lowest unemployment rate (3.8 percent), followed by Walton County (4.2 percent); Alachua and Okaloosa counties (5.0 percent each); and Bradford and St. Johns counties (5.2 percent each). Many of the counties with the lowest unemployment rates were those with relatively high proportions of government employment.
- Hendry County had the highest unemployment rate (9.8 percent) in Florida in February 2014, followed by Flagler County (9.4 percent); Hamilton County (9.0 percent); and Hernando, Madison, and Putnam counties (8.6 percent each). Hendry's high rate was mainly due to long-term job losses in government employment. There were no counties with double-digit unemployment rates for February or January.

Area Nonagricultural Employment (Not Seasonally Adjusted)

• All of the 22 metro areas in the state had over-the-year job gains in February 2014. The areas with the largest gains were Orlando-Kissimmee-Sanford (+37,400 jobs, +3.6 percent), Miami-Miami Beach-Kendall (+30,400 jobs, +2.9 percent), and Tampa-St. Petersburg-Clearwater (+29,600 jobs, +2.5 percent).

Note: The unemployment and job growth rates are estimates, which are primarily based on surveys created and mandated by the U.S. Bureau of Labor Statistics in cooperation with the Florida Department of Economic Opportunity.

The unemployment rate is derived from Florida household surveys conducted by the U.S. Census Bureau under contract with the U.S. Bureau of Labor Statistics. The job growth rate is derived from Florida employer surveys conducted by the U.S. Bureau of Labor Statistics.

Both estimates are revised on a monthly basis. In addition, these estimates are benchmarked (revised) annually based on actual counts from Florida's Reemployment Assistance tax records and other data.

Procedures mandated by the U.S. Bureau of Labor Statistics may result in more variable month-to-month changes. For further information, go to: http://www.bls.gov/sae/cesprocs.htm

The mission of the Florida Department of Economic Opportunity is to promote economic prosperity for all Floridians and businesses through successful workforce, community, and economic development strategies. Please visit www.floridajobs.org for more information.

The next Florida Employment and Unemployment release will be April 18, 2014, at 10:00 A.M.
