

## Frank doesn't just sit there!

As a Palm Coast City Councilman, Frank....

- Does what he says he's going to do based on the **Facts**.
- Proposed and **Succeeded** in passing innovative ideas to improve his District.
- Is **Vigilant** on costs, focusing on taxpayers dollars, insuring that all Palm Coast citizens benefit.
- Pushed for a policy of bringing in more sporting events, which generated **Economic Return** within Palm Coast and the County by filling hotels and restaurants.
- Does his **Homework**, and comes prepared to discuss the issues.
- **Focused** economic development on projects & areas that could be accomplished with minimal fiscal resources.

## Personal Note from Frank

"I enjoy exchanging ideas and viewpoints with people of various opinions. Through dialogue comes understanding. I'm here to represent ALL of Flagler County Citizens with a focus on District 2 and that is the way it will always be".

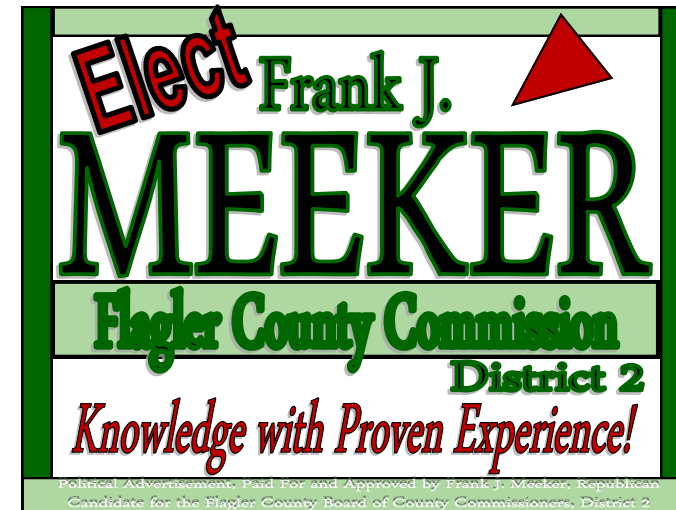

*Frank*

- Palm Coast City Council 2007 to Present
- Currently State Committeeman for the Republican Party of Florida.
- Voted Citizen of the Year by the Volusia County Association of Responsible Development in 2010.
- Flagler County Recreational Youth Soccer Coach for 4 years.
- Flagler County Competitive Youth Soccer Coach for 10 years.

Candidate for Flagler County BOCC, District 2

Frank J. Meeker, Republican, Candidate for Flagler County Board of County Commissioners, District 2

## Frank J. Meeker - the Candidate

As a Candidate for Palm Coast City Council five years ago, Frank J. Meeker promised:

- Immediate Action on Fiscal Prudence,
- Roadway Improvements including more east/west connections,
- More Efficient Government and Early Citizen Input,
- Continued work on a reliable water supply, the retrofitting of old and worn out infrastructure and preparation for the Future,
- Citizen and City initiatives that are tough and concise, but infused with common sense.

### **He lived up to all of those commitments and more.**

- He talked about economic development and business growth and passed the Bounty For Business program using limited fiscal resources.
- He worked with the council to establish and support the Business Assistance Center.
- He succeeded in implementing tough concise land development codes.
- He saved \$5.6 million dollars in the budget over three years with no loss in services to citizens.
- He pushed for a Solid Waste Contract that saved citizens money and included important environmental protections & enhanced services.
- He promoted water conservation and worked for a reliable water supply water including expanding the well field & retrofitting old and worn out construction.
- He worked diligently to make government more responsive & efficient.

## Personal Profile

Frank J. Meeker is a Certified Environmental Professional who has lived and worked in Palm Coast for 25 years. Frank and his wife Debbie, have been married since 1978 and they have two sons and a daughter-in-law. One son, is a Sergeant serving our country in the Air Force, and the other, is a fire fighter/EMT with EVAC of Volusia County. Frank has a degrees in advanced environmental science and planning, having earned a B.S. degree in Environmental Science and a M.S. in Coastal Resources, both from the Florida Institute of Technology. With considerable experience in permit acquisition, environmental regulations & compliance, operations, management, budget preparation and capital projects management, Frank also served as the District Ombudsman for the St. Johns River Water Management District and now as a Senior Regulatory Scientist. Frank has proven himself to be a results oriented manager addressing concerns for the people and is well published with 25 articles at last

## Civic, Professional & Leadership Posts

- Service on numerous legislative committees including the Florida Senate Natural Resources Wetland Delineation Sub-committee, Senate Solid Waste Recycling Committee, and Senate Wetland Action Committee.
- Local experience includes Palm Coast Planning and Land Development Review Board since 2000, Palm Coast Community Service Corporation Board of Directors, Member of original Palm Coast Utilities Advisory Committee, Flagler County Commission Landfill Selection Group, Charter member of the Palm Coast Jaycees, past president of Flagler United Soccer.
- Certified Environmental Professional, member of the American Planning Association, Regular and Advanced Graduate of the League of Cities Institute for Elected Officials.
- Voted Citizen of the Year by VCARD in 2010.

## General County Issues

count, in a number of technical and regulatory publications.

- Frank believes that the best ideas come from grassroots government - and that's also where the best decisions are made. The government closest to the people governs best. Strong Home Rule powers ensure that government stays close to the people it serves while promoting grassroots-driven, Home Rule solutions for Flagler's most pressing issues.
- He also believes that rules and regulations should be as short as possible, understandable, and accomplish the goal for the writing of the ordinance. Codes are a necessary protection to keep property values high, but must be understandable, and fairly enforced.
- Based on the current budgeting problems, Frank would like to open up a dialogue with the Commission on considering Multi-year budgeting so we know where we are going.
- The Malacompra North Drainage Project needs to be completed with engineering permits secured based on a system that will work.
- Declines in transportation infrastructure need to be addressed.
