## **Florida's November Employment Figures Released**

[www.employflorida.com](http://www.employflorida.com)

**TALLAHASSEE** – Florida's seasonally adjusted unemployment rate in November 2010 is 12.0 percent. This represents 1,110,000 jobless out of a labor force of 9,237,000.

Florida's total nonagricultural employment in November 2010 is 7,204,700, representing an increase of 300 jobs (less than +0.1 percent) over the month. Florida's annual job growth rate is up 0.5 percent, representing an increase of 36,200 jobs from November 2009. Nationally, the number of jobs is up 0.6 percent over the year.

"The November unemployment rate reflects the challenges our state is facing as we slowly emerge from the national recession. Knowing that this is an uncertain time for many Florida families, our agency has been closely monitoring the discussion in Congress on an additional extension of federally funded unemployment benefits. With passage of the legislation last night, we are prepared to immediately begin processing payments as soon as the president signs the bill," said AWI Director Cynthia R. Lorenzo. "We strongly encourage job seekers to regularly visit [www.employflorida.com](http://www.employflorida.com), the state's online job bank, for continuously updated employment opportunities, resume assistance and access to training and education programs."

### **Employ Florida**

The agency recently began a statewide radio campaign to encourage out-of-work Floridians to take advantage of the online services available on [www.employflorida.com](http://www.employflorida.com). In addition to the more than 218,000 job listings posted the week ending December 4, the website also provides access to a "virtual recruiter" tool which emails job openings that match registrants' skills.

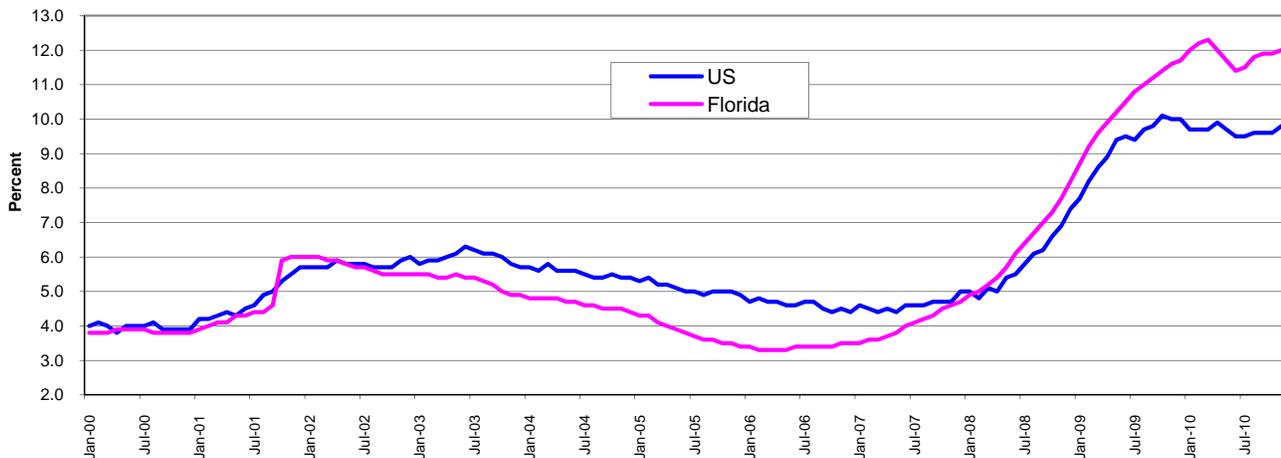

Employers are also encouraged to use [www.employflorida.com](http://www.employflorida.com) to post positions, find qualified candidates, view labor market information and access a variety of additional business support services.

## New Benefits Payment Method

This week the agency began a pilot program in Hamilton, Jefferson, Lafayette, Madison, Suwannee and Taylor Counties to provide unemployment compensation payments through a Visa® debit card. The optional debit card provides eligible beneficiaries access to funds from one to four days sooner than traditional methods of direct deposit or paper checks. Statewide implementation of the debit card program is planned for early 2011.

Regularly updated information about pending Congressional action, the debit card program and other issues can be found on the agency's website under UC Hot Topics at [www.floridajobs.org](http://www.floridajobs.org).

## United States and Florida Unemployment Rates (seasonally adjusted)

Source: Florida Agency for Workforce Innovation, Labor Market Statistics Center, Local Area Unemployment Statistics Program, in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

## Florida's Nonagricultural Employment by Industry (Seasonally Adjusted)

- The number of jobs in Florida is 7,204,700 in November 2010, up 36,200 jobs compared to a year ago. This is the fifth annual increase in jobs since the state started losing jobs in July 2007. The industry gaining the most jobs is private education and health services (+28,900 jobs, +2.7 percent).
- Other industries gaining jobs include: leisure and hospitality (+21,400 jobs, +2.4 percent); other services (+13,600 jobs, +4.4 percent); professional and business services (+10,100 jobs, +1.0 percent); and trade, transportation, and utilities (+5,900, +0.4 percent).
- These industry job gains are partially due to increases in ambulatory health care services; accommodation; membership associations and organizations; computer systems design; and general merchandise stores.
- The industries losing jobs over the year include: construction (-12,900 jobs, -3.6 percent), manufacturing (-9,200 jobs, -3.0 percent), financial activities (-8,100 jobs, -1.7 percent), total government (-7,900 jobs, -0.7 percent), and information (-5,500 jobs, -3.9 percent).
- These industry job losses are partially due to weakness in specialty trade contractors, fabricated metal product manufacturing, real estate, federal government, and telecommunications.

[www.floridajobs.org](http://www.floridajobs.org)

## Local Area Unemployment Statistics (Not Seasonally Adjusted)

- In November 2010, Liberty County has the state's lowest unemployment rate (8.1 percent), followed by Monroe County (8.5 percent); Alachua County (8.6 percent); Leon, Okaloosa, and Wakulla counties (8.7 percent each); and Walton County (8.9 percent). Most of the counties with the lowest unemployment rates were those with relatively high proportions of government employment.
- Hendry County (17.9 percent) has the highest unemployment rate in Florida in November 2010, followed by Flagler County (16.6 percent), Hernando and St. Lucie counties (15.2 percent each), and Marion County (14.6 percent). Hendry County's unemployment rate remains the highest in the state, as seasonal increases in agricultural employment are not enough to offset continued weakness in other industries. Other counties with the highest unemployment rates were experiencing continued weakness in construction. There are 55 Florida counties with double-digit unemployment rates in November, up from 48 the previous month.

## Area Nonagricultural Employment (Not Seasonally Adjusted)

- Ten metro areas out of 22 in the state have over-the-year job gains. The three areas with the largest gains are Orlando-Kissimmee-Sanford (+11,600 jobs, +1.2 percent), West Palm Beach-Boca Raton-Boynton Beach (+5,700 jobs, +1.1 percent), and Miami-Miami Beach-Kendall (+4,900 jobs, +0.5 percent).
- Of the metro areas with job declines, the three areas with the largest losses are Ft. Lauderdale-Pompano Beach-Deerfield Beach (-5,300 jobs, -0.8 percent), Palm Bay-Melbourne-Titusville (-2,500 jobs, -1.3 percent), and Jacksonville (-1,600 jobs, -0.3 percent).

**Note:** These unemployment and job growth rates are estimates, which are primarily based on surveys created and mandated by the U.S. Bureau of Labor Statistics in cooperation with the Florida Agency for Workforce Innovation.

The unemployment rate is derived from Florida household surveys conducted by the U.S. Census Bureau under contract with the U.S. Bureau of Labor Statistics. The job growth rate is derived from Florida employer surveys conducted by the U.S. Bureau of Labor Statistics.

Both estimates are revised on a monthly basis. In addition, these estimates are benchmarked (revised) annually based on actual counts from Florida's Unemployment Compensation tax records and other data.

New procedures recently mandated by the U.S. Bureau of Labor Statistics may result in more variable month-to-month changes. For further information, go to: <http://www.bls.gov/sae/cesprocs.htm>

###

An equal opportunity employer/ program. Auxiliary aids and services are available upon request to individuals with disabilities. All voice telephone numbers on this document may be reached by persons using TTY/TDD equipment via the Florida Relay Service at 711.

The Agency for Workforce Innovation is Florida's lead workforce agency and directly administers the state's various workforce and unemployment programs and the Office of Early Learning. Workforce development policy and guidance are provided by Workforce Florida, Inc. Partnering together, along with the state's 24 Regional Workforce Boards that deliver services through more than 90 One-Stop Career Centers around the state, they compose the Employ Florida network.

*The next Florida Employment and Unemployment release will be on January 21, 2011, at 10:00 A.M.*
