

Flagler County Public Schools

Electronic Systems Responsible Use Agreement

Please read this document carefully before signing.

GOAL

The Flagler County School District believes the Internet and other electronic systems offer vast, diverse, and unique resources to both students and staff. Our goal in providing these services is to promote educational excellence in schools by facilitating resource sharing, innovation, and communication.

The utilization of computer technology by employees and students is an integral part of the educational programs and administration of the school district. It is the policy of the School Board of Flagler County to strongly encourage and support the use of technology by students and staff. The School Board recognizes that keeping pace with computer technology is vital for the success and preparation of our students in the future. Keeping pace with technology is also necessary for the efficient operation of the school district. It is the intent of the School Board to provide meaningful opportunities for students to learn and benefit from advances in computer technology and information resources. In addition, it is the intent of the School Board to support staff with training and equipment to maximize instruction and administrative efficiency.

With access to a global network also comes the potential availability of material that may be inappropriate for a school setting. The Flagler County School District, in accordance with its policies and procedures, will take reasonable precautions to ensure the appropriate use of its network by staff, students, and visitors to the district. However, it is not technically possible to control all materials and users may encounter inappropriate information either by accident or through intentional misuse of the system. The Flagler County School District believes the educational value of information and interaction through electronic systems outweighs the risk of inappropriate use. The Use Agreement below outlines terms and conditions of system use that must be followed by students, staff, and visitors to the district. Staff and students must complete and return this agreement prior to accessing any network connected systems. For students under the age of 18, a parent or guardian's signature is also required.

Student / Parent Electronic Systems Responsible Use Agreement School Board Policy 321

I understand and will abide by the Terms and Conditions of Electronic Systems Responsible Use Policy. Violations may result in the restriction or suspension of my access privileges. In addition, violations may result in school disciplinary action and/or appropriate legal or criminal action being initiated against me.

Date: _____ Student Signature: _____

Parent or Guardian (Required if student is under the age of 18)

As a parent or guardian of this student, I have read the Terms and Conditions of the Electronic Systems Responsible Use Policy. I understand that this access is designed solely for educational purposes and the School District has taken reasonable precautions to supervise and filter Internet usage. I also recognize it is impossible for the District to restrict access to all controversial materials and I will not hold the District responsible for information acquired or contacts made on the network. Further, I accept full responsibility for supervision of Internet usage by my child outside of the school setting. I hereby give permission to establish network privileges for my child and certify that the information contained on this form is true and correct to the best of my knowledge and belief.
