**FLORIDA'S 12-MONTH JOB GROWTH PERCENTAGE OUTPACES THE NATION
FOR THE FIRST TIME SINCE 2007**

www.employflorida.com

Tallahassee, Fla. - Today Governor Rick Scott, joined by Department of Economic Opportunity (DEO) Executive Director Doug Darling, announced that Florida's unemployment rate for September is 10.6 percent, down 1.3 percentage points since January 2011. Florida's unemployment rates over the last five months are at the lowest since August 2009. In contrast, the national unemployment rate has gone up 0.1 percentage point during the same five-month period.

Florida has already begun to reap the benefits of a smaller, less-costly government and more business-friendly environment, as evidenced by the 110,300 private sector jobs added since January. Florida has had a net gain of 92,400 jobs during the same time period with a net gain of 23,300 jobs in September alone. In addition, Florida's 12-month job growth percentage rate, of 1.3 percent has outpaced the nation for the first time since 2007.

"Today's numbers are a strong signal that Florida is doing the right things to rebound from difficult economic times. But our job is far from over with 977,000 residents unemployed," said DEO Executive Director Doug Darling. "We must continue our efforts of coordinated economic development to create jobs and ensure our workforce is skilled and ready to be matched with employment opportunities."

Governor Scott provided the update on Florida's job creation efforts while leading a trade mission to Brazil to expand international trade, investment and tourism. Brazil is Florida's number-one trading partner, and Florida and Brazil share a \$16 billion bilateral trade relationship. In addition, Brazil also led Florida's tourism industry last year as the number-two country of origin and number-one in tourism spending.

Governor Scott recently unveiled his [2012 Job Creation and Economic Growth Agenda](#). Highlights include additional efforts to streamline regulations and provide tax relief to spur economic development, prioritize transportation projects to bring new jobs to Florida, and update the state's unemployment system to ensure job seekers have the skills needed to secure employment in current and future job markets.

The Florida Department of Economic Opportunity combines the state's economic, workforce and community development efforts under one roof. This one-stop shop approach helps expedite economic development projects to fuel job creation in competitive communities. For more information including valuable resources for employers and job seekers, please visit www.floridajobs.org.

United States and Florida Unemployment Rates (seasonally adjusted)

Source: Florida Department of Economic Opportunity, Labor Market Statistics Center, Local Area Unemployment Statistics Program, in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Florida's Nonagricultural Employment by Industry (Seasonally Adjusted)

- The number of jobs in Florida is 7,253,900 in September 2011, up 93,500 jobs compared to a year ago. September is the twelfth consecutive month with positive annual job growth after the state lost jobs for over three years. The industry gaining the most jobs is leisure and hospitality (+58,500 jobs, +6.4 percent).
- Other industries gaining jobs include private education and health services (+33,000 jobs, +3.1 percent); trade, transportation, and utilities (+20,100 jobs, +1.4 percent); professional and business services (+11,100 jobs, +1.1 percent); financial activities (+2,100 jobs, +0.4 percent); and other services (+1,200 jobs, +0.4 percent).
- These industry job gains are partially due to increases in food services and drinking places; ambulatory health care services; clothing and accessory stores; management and technical consulting services; real estate; and repair and maintenance.
- Industries losing jobs over the year include: total government (-14,000 jobs, -1.3 percent), construction (-12,900 jobs, -3.8 percent), information (-5,500 jobs, -4.1 percent), and manufacturing (-400 jobs, -0.1 percent).
- These industry job losses are partially due to losses in local government; construction of buildings; telecommunications; and miscellaneous manufacturing.

Local Area Unemployment Statistics (Not Seasonally Adjusted)

- In September 2011, Monroe County has the state's lowest unemployment rate (6.7 percent), followed by Liberty County (6.9 percent), Walton County (7.1 percent), Okaloosa County (7.3 percent), and Franklin County (7.8 percent). Many of the counties with the lowest unemployment rates are those with relatively high proportions of government employment.
- Hendry County has the highest unemployment rate (17.6 percent) in Florida in September 2011, followed by Flagler County (14.6 percent), Indian River County (13.7 percent), Hernando County (13.5 percent), and St. Lucie County (13.4 percent). Seasonal declines in agriculture and layoffs in state government contributed to Hendry County's high unemployment rate. There are 41 Florida counties with double-digit unemployment rates in September.

Area Nonagricultural Employment (Not Seasonally Adjusted)

- Fifteen metro areas of the 22 in the state have over-the-year job gains in September 2011. The areas with the largest gains are Tampa-St. Petersburg-Clearwater (+24,500 jobs, +2.2 percent), Miami-Miami Beach-Kendall (+15,500 jobs, +1.6 percent), and Orlando-Kissimmee-Sanford (+11,900 jobs, +1.2 percent).
- Of the metro areas with job declines, the largest losses are in Palm Bay-Melbourne-Titusville (-5,000 jobs, -2.6 percent), Lakeland-Winter Haven (-2,100 jobs, -1.1 percent), and Tallahassee (-1,100 jobs, -0.6 percent).

Note: These unemployment and job growth rates are estimates, which are primarily based on surveys created and mandated by the U.S. Bureau of Labor Statistics in cooperation with the Florida Department of Economic Opportunity.

The unemployment rate is derived from Florida household surveys conducted by the U.S. Census Bureau under contract with the U.S. Bureau of Labor Statistics. The job growth rate is derived from Florida employer surveys conducted by the U.S. Bureau of Labor Statistics.

Both estimates are revised on a monthly basis. In addition, these estimates are benchmarked (revised) annually based on actual counts from Florida's Unemployment Compensation tax records and other data.

New procedures recently mandated by the U.S. Bureau of Labor Statistics may result in more variable month-to-month changes. For further information, go to: <http://www.bls.gov/sae/cesprocs.htm>

The mission of the Florida Department of Economic Opportunity is to promote economic prosperity for all Floridians and businesses through successful workforce, community, and economic development strategies. Please visit www.floridajobs.org for more information.

The next Florida Employment and Unemployment release will be on November 18, 2011, at 10:00 A.M.
