

No

Could we change dress code a little bit?

N/A

Tim king jr needs to hit the gym

Flagler is great on paper but when it comes to the individual we are lacking. The school needs to stop worrying about their grade and start worrying about the students getting pushed through the system.

Consider less testing and more extra curricular in elementary level. Afterschool care at middle school levels would be a bonus for child safety. Better communication from I3 program director.

Time to stop requiring students to wear collared shirts and making only certain colors acceptable. This is a public district where many families struggle with purchasing two sets of clothing for all their school aged children. The district should set a dress code Not a uniform policy, two very different things.

The back to schools events for each school are not clearly listed on the schools websites. There is conflicting info around all outlets. Consistency and ease of finding information would be helpful

Keep working to keep everyone safe please

The administrators speak of "transparency", however, many "secrets" prevail (Ex: staffing plans and proposed practices). Why does the Director of SCE, who knows so little about ESE, yet reportedly, makes the major staffing and fiscal decisions for our students with disabilities? ESE stakeholders in the schools are not included prior to major district level decisions.

A lot of parents are upset that they had to wait for any teacher info and class list to be able to shop for supplies and take advantage of the tax free weekend. Our county has higher than average reduced lunch/needed families and this was unfair to them. I am not one of them, but I followed closely on social media. I did see that you created a list but only certain teacher actively followed up on those. I think the district needs to plan better next year and if you're also changing the time school starts and ends, allow parents TIME so that arrangements with work can be made. Also consider a link in skyward that parents can get in summer with teacher/supply list. Just my thoughts, thanks for listening and doing a great job for our children.

I wish that all Flagler schools would be required to provide the parents via Skyward their teacher info and required school list. Most schools do provide that. I understand that there will be last minute changes but the majority of assignments have been completed. This would alleviate the stress of that minute running around to stores that have already sold out.

As a taxpayer, not nearly enough information is provided. I suggest a semi-annual newsletter to all TAXPAYERS

each child should be treated as an individual. Students must also learn outside the box.

I am very concerned about the hostile environment present at BTES and how it is being covered up by the district. I am also concerned about someone in Dr. Johnson's position being so incredibly inarticulate.

I am a retired teacher from an extremely high performing school district.

I am 75 no children but think general home repair is necessary the kids will be able to apply it throughout their lives

Why is there such a disparity between scores in the middle schools. What is wrong at Buddy Taylor?

I don't have children but believe that even that fact should be included your survey.

Students who transfer in from other states are not given information about all the different opportunities available to them through the high school(programs, dual enrollment etc)

Need to do more to keep our children safe. The problem children are known, and for the safety of all they need to be removed.

I've had the opportunity to witness the workings of Flagler schools through mentoring and am impressed with what I've seen. Students have the opportunity to achieve their goals.

You need to seriously address the social media problem and its effect on students.

need to enforce the uniform policy, and stop the liberal bias being taught

We are retirees who highly value public education. We honestly don't know how Flagler schools are doing and would like to see more info in the local papers.

Adult Ed? or Continuing Ed?

Raise teachers pay, lower admins pay, cut the fat

When there are threats the public should be notified too. Not just the parents.

Your citizens can also provide valuable info/intel.

There is a difference between the cream of the crop at the two public middle schools and the Charter middle school that is noticeable every year. I wonder to what you attribute the outstanding performance of the Charter School 12 year old students? The students tell us it is a character based education that does NOT teach to the test.

Is there 100% protection from gun violence?

The bullying lack of support for the kids being bullied and protecting the bully have to stop. Your mean guidance counselor are also bullies and are awful at their jobs they need more training and compassion for the kids

You are doing a great job

Need to pay your employees more and have less hostile work place.

No

With a child who attended pre-k at a private school and being new to the district, we had no way of knowing that vpk was available at our local public school until vpk was full. Obviously, the private school never bothered to mention that vpk was available elsewhere. There should be a way to let new families know about the local public schools.

You waste taxpayer money

It's time to put schools decisions back in the hands of parents and remove it from the businesses who give the most to school board members. They DO NOT and SHOULD NOT have ANY say in what direction schools go. The classrooms to careers voc ed mantra needs to stop. It is a business ploy to keep many kids from being "well educated" and allow businesses to keep salaries low. Pity that schools are now pawns of the business world.

The strict dress code doesn't improve our children's learning experience, rather, it hinders it by wasting time in the deans office for dress coding

Check the spelling of "relevant": Communication from the District is relevent

It would be really nice to have "Meet the Teacher" before the tax holiday. Or a teacher specific supply list in advance.

As a parent I really would like to know more about the district wide dress code. I feel like if you would listen to the children's voices more could get done in a safe and a respectful manner.

N/A

A majority or many students do not grasp the math and reading/writing.

No.

I feel the schools are missing a huge opportunity in getting volunteers that are retired. I had tried numerous times to get connected and it took a lot of effort on my part. I believe strongly you are missing out on many helpers especially in the elementary ages.

It is too scary to send my kids to schools where God isn't welcome but teachers need a workshop to teach them how to deal with active shooters.

We need community activities that support education. I.e. tutoring, summer camps

Yes, you need digital registration and combine all those forms asking the same info over and over: you need more registrars as my child will not be in school for the first day because 4 days ago there were too many kids registering with one registrar. Colleges have been doing online registration and class selection etc for at least 10 to 15 years.

Change the school start times

I am a grandparent of a child in Flagler Schools. Very satisfied w his education but hate that teachers have to teach him how to take tests! Too much pressure

District must continuously monitor the discipline rate for minority students when compared to non-minority students.

Alleviate the uniform policy. I'm not sure how a public district can enforce a uniform dress code like a private school can.

Communication has been lacking the last year. I would like to see updated, current school websites, with current information. If schools do not want FB, etc, they should not have one. Some of them are not updated at all(Old programs listed, no info on new activities, etc) Even weekly updates via Remind would be great. They could be sent out en masse. We don't often hear about events until the day of, or after the fact. (Like fundraisers, no collar for a dollar)

I do not agree with the new FPC policy that all students must be off campus by 2:30 or with a club, teacher or youth center. It is impossible to get out of that parking lot by 2:30. I think 3pm is a more realistic time.

Communication in schools and the district need work. Jason Wheeler does not include all schools. My child is enrolled in iFlagler courses and they are never mentioned! They are a phenomenal school especially Ms. Quinn and Mrs. Brocksmith

The website needs to be a little more user friendly. I have a child in ESE program, this is very hard to find. To many windows to get there.

Yesterday morning (08/15/19) a mass dress code check was conducted at FPC which resulted in nearly 100 students losing valuable instructional time for minor dress code infractions. I understand that Mr. Russell is trying to set the tone for the school year, but pulling students from class to wait in the cafeteria to be written up or sitting in "I.C.E." all day instead of learning in a classroom is a far more of a distraction from the curriculum than a pair of ripped jeans. The dress code is important and should be enforced , but this kind of cattle call punishment system will result in poor attendance and reduced graduation rates. I think Mr. Russell should get his priorities straight, instead of trying to redeem himself at the cost of student academic success.

No thank you

You should have n/a as an option if you don't have children on question #2

PLEASE,,PLEASE,, CONSIDER THE BOOK BAG ISSUE,,, I think this is going to be long term (issue) for our children,,, each teacher requires BINDERS/NOTEBOOKS/COMPUTER

And this child is carrying all day,, times 5 days a week,,this can NOT BE A GOOD outcome FOR future!!

Bullying is a concern I have in Flagler schools. I've witnessed it get swept under the rug and ignored on numerous occasions. We need to have a zero tolerance and nothing less.

At the front desk and in the media center(library) have higher expectations of students behavior. Often, many are on the phone, talking to each other and especially at the front desk pay no attention to incoming guests, parents vendors etc. Lighting outside of basketball gym is terrible creating an environment that is

not safe and additionally creates a poor appearance for visiting teams, guests and students. Signing for facilities can be improved for visitors. Maintain higher standards of students dress.

The school uniform policy is a waste. Stick to a dress code. Taking kids out of class learning for uniform violations is not a good use of time

you guys should work harder on preventing bullying and fights

not at this time

NO

nope

Security and fun safety needs to be priority.

Not at this time.

Pay teachers & staff more

I have 2 very nice trumpets I would like to sell (\$150, \$250) who might I contact? I've tried emailing the high school band director - no response.

Dawn Florkowski - 386-263-2177

Clean up school grounds, they have not been maintained for years.

Safety in our schools is very important to me.

We need to work on student stress level for state testing

The middle school athletic program is very confusing for those of us that have just moved here. I haven't received any information about how to have my son tryout/play for the school not an after school club.

This should be done later on to early now
