DISTRICT QUESTIONS

District Questions

Have you retired from any State of Florida administered retirement plan? You are considered retired if: 1) You have received any benefits under the FRS Pension Plan (including DROP). 2) You have taken any distribution (including a rollover) from the FRS Investment Plan, or alternative retirement programs offered by state universities (SUSORP), state community colleges (CCORP), state government (SMSOAP), or local governments.

No

If you have retired from a state of Florida administered retirement plan, is the effective date July 1, 2010 or later?

No

Have you previously been employed, other than a substitute teaching capacity, with the Flagler County School District?

No

If "Yes", please provide the dates of your previous employment with the District and your position.

Is any member of your immediate family employed by the school district of Flagler County? **Yes**

If "Yes", please provide the name of your family member, School/Dept where they worked, and Position Held.

Mark J. Adams Belle Terre Elementary 5th grade

Been investigated for misconduct related to your employment? **No**

If "Yes", please provide a detailed explanation.

Been arrested or charged(even if no contest or charges dropped or pled down) for a crime? **No**

If you answered "Yes" please provide details including the date of the charge, the court action, and the address of the court involved.

Are you currently under indictment or subject of any other pending legal proceeding for a criminal offense?

No

If "Yes", please provide details including the date of the charge, the court action, and the address of the court involved.

Are you under investigation by any local, county, state, federal, or international agency for any reason (including any violation of the Florida Code of Ethics)?

No

If yes, please provide a detailed explanation.

Been named by a state agency responsible for child welfare as a perpetrator in an indicated report of child abuse or neglect?

No

If yes, please provide a detailed explanation.

Had a report of child abuse or sexual activities involving a K-12 student or minor filed against you with a school district, a state or federal agency, a police agency, or in court?

No

If yes, please provide a detailed explanation.

Have you ever had a professional certificate, credential or license (of any kind) revoked or suspended, or have you been placed on probationary status for any alleged misconduct or alleged violation of professional standards or conduct. Are there any pending adverse actions against you?

No

If yes, please provide a detailed explanation.

Have you ever been denied a professional license for which you applied or granted a professional license on a conditional or probationary basis for any alleged misconduct or alleged violation of professional standards of conduct?

No

If yes, please provide a detailed explanation.

Have you surrendered a professional license of any kind before its expiration? **No**

If yes, please provide a detailed explanation.

Have you ever been disciplined by any public agency responsible for licensure of any kind, including but not limited to educational licensure?

No

If yes, please provide a detailed explanation.

Have you ever been suspended, terminated, non-reappointed, released during a probationary period or resigned in lieu of termination or non-reappointment from an educational institution, the State of Florida, or any other employer/organization including the military?

No

If yes, please provide a detailed explanation.

Have you ever been placed on leave by your employer or left such employment prior to the end of the contract term due to any reason other than the Family Medical Leave Act or a physical disability?

No

If yes, please provide a detailed explanation.

Is your physical/mental health condition such that you can fulfill the essential job functions of the position for which you are applying (either with or without reasonable accommodations)?

No

Are you considered a "High Risk" offender, according to Senate Bill 988? **No**

If you answered YES to the question above, please explain in the space provided, including the date of your last conviction.

Have you ever had any record sealed or expunged in which you were convicted, found guilty, had adjudication withheld, entered a pretrial diversion program, or pled guilty or nolo contendere (no contest) to a criminal offense other than a minor traffic violation (DUI is NOT a minor traffic violation)? Failure to answer this question accurately could result in dismissal from employment. A YES or NO is required by Florida Law.

No

If Yes, you must specify the City Where Arrested, State, Date of Arrest, Charge(s), and Disposition(s). Please NOTE: Sealed or expunged records must be reported pursuant ss. 943.0585 and 943.059, FS. However, the existence of such records will not be disclosed nor made part of your certification file which is public record.

Have you ever been convicted, found guilty, had adjudication withheld, entered a pretrial diversion program, or pled guilty or nolo contendere (no contest) to a criminal offense other than a minor traffic violation (DUI is NOT a minor traffic violation)? Failure to answer this question accurately could result in dismissal from employment. A YES or NO is required by Florida Law.

No

If Yes, you must specify the city where arrested, state, date of arrest, charge(s), and disposition(s).

Are you a veteran as defined by s. 295.07, Florida Statutes? **No**

Are you claiming Veteran's Preference? If yes, a DD214 must is required and can be submitted under attachments.

No

If you are claiming Veteran's Preference, please indicate the provision under which you qualify.

Provision 1 – A veteran of any war who has served on active duty for one day or more during a wartime period, excluding active duty for training, and who was discharged under honorable conditions from the Armed Forces of the United States of America.

Provision 2 – A veteran with a service-connected disability who is eligible for or receiving compensation, disability retirement, or pension under public laws administered by the U.S. Department of Veterans Affairs and the Department of Defense.

Provision 3 – Receipt of any Armed Forces Expeditionary Medal is qualifying for veterans' preference.

Provision 4– The spouse of a veteran who cannot qualify for employment because of a total and permanent service-connected disability, or the spouse of a veteran missing in action, captured, or forcibly detained by a foreign power.

Provision 5 – The unremarried widow or widower of a veteran who died of a service-connected disability.

If you state that you were "A veteran of any war...", please indicate the war, according to these options:

Korean Conflict: June 27, 1950 to January 31, 1955

Vietnam Era: February 28, 1961 to May 7, 1975

Persian Gulf War: August 2, 1990 to January 2, 1992

Operation Enduring Freedom: October 7, 2001 to date to be determined

Operation Iraqi Freedom: March 19, 2003 to date to be determined

DISCLAIMERS AND AFFIRMATION

District Policy

We conform to all the laws, statutes, and regulations concerning equal employment opportunities and affirmative action. We strongly encourage women, minorities, individuals with disabilities and veterans to apply to all of our job openings. We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, gender, sexual orientation, gender identity, or national origin, age, disability status, Genetic Information & Testing, Family & Medical Leave, protected veteran status, or any other characteristic protected by law. We prohibit Retaliation against individuals who bring forth any complaint, orally or in writing, to the employer or the government, or against any individuals who assist or participate in the investigation of any complaint or otherwise oppose discrimination.

Application Confirmation Statement

I affirm that all information set forth in this application is accurate, truthful and complete. If I am employed by Flagler County School District, I will abide by all Board of Education and school policies, work on assigned committees, and continue my professional growth to the best of my ability and within reasonable and personal standards. I grant permission for school officials to obtain a personal record check from the federal, state, county, and/or local law enforcement agencies and Division of Family Services. I understand that references may be contacted as soon as I submit an application. I release individuals listed as references and current or former employers from any liability for information given in response to a request for an employment reference.

I understand that I will be required to take a drug test and that some positions in the district require a physical exam prior to assuming any position for which I may be employed. In the event that I am employed by the District and in the further event that I have provided false or misleading information in this application or in subsequent employment interviews, I understand that my employment may be terminated at any time after the discovery of the false or misleading information.

I agree to the terms above	**Affirm**

- Letters of Recognition from FIU, FSU, Barry, U of M, and Boston University as teacher who has been nominated by students as a role model

March 11, 2017

School Board of Flagler County

1769 East Moody Blvd. Bldg #2

Bunnell, Florida 32110

Dear Members of the Board:

My name is Martha Adams and I am applying for the position of Superintendent of Schools for Flagler County. I believe an effective and outstanding superintendent is one who has copious talents and abilities. He/she must be a visionary one who cannot only see into the future, but one who foresees, plans and prepares. This person not only sees beyond, but predicts possible challenges and prevents or mitigates and finally resolves effectively. An excellent superintendent is curious, confident and knowledgeable sure of his/her knowledge, education, training, expertise and talent. He/she is not afraid to take risks, prioritize, innovate and be creative. An excellent superintendent is a speaker, a people person, one who is enthusiastic and energized who in turn, can energize others. This is a person who is empathetic, kind, yet strong, not afraid to pay a price today for a greater beneficial outcome tomorrow. That greater outcome should be the effective preparation, development, both academically and emotionally of our greatest dearest possession, the greatest national resource we have, and the future of our country, our children. It is up to him/her to help prepare and inspire children and people with a knowledgeable, caring, nurturing, disciplined, well-trained, creative, inspiring, staff and educators. This should also be an individual who is open minded, respectful, inclusive, an outstanding communicator, optimistic, has strong work ethics. This, is a person who understands teaching pedagogy because they have lived, practiced and succeeded as an educator. Finally, a person who has vast experience with a myriad of disciplines, curriculum, staff development and a proven track record of growth, development and success in both students and teachers as well as visualized as an effective inspiring educator.

I believe I am that person. I possess what very few other candidates if any, may have for this position since my experience and expertise weaves an intricate tapestry of education, training and experiences to include; teaching K-12, including college, training teachers, creating curriculum, supervising, managing, consulting and administrating. I have a rich, varied, academic and experiences background covering and delving into many different subject areas including and certainly not limited to the sciences, educational pedagogy, curriculum, mathematics, language arts, history, philosophy, fine arts, finance, economics,

marketing/management and foreign languages. I am conversant and fluent not only in English but also in Spanish and some French.

I believe, because of the above mentioned ingredients, and incredible God-given talents of understanding, empathizing, ability to temper discipline with love and kindness, and inspiring that my students and former students, which include; doctors, scientists, researchers, teachers, lawyers, politicians, judges, commanders, nurses, therapists, journalists, administrators, assistant superintendents, entrepreneurs, scientists, business men and women, to name but a few excel not just in man-made established successes but ultimately and more importantly, in both their personal and professional lives. They are exceptional citizens who love not only family and friends, but also their country and have dedicated themselves to doing the right thing, especially when no one is looking.

I have been blessed and honored with a solid trail of successes, awards and recognition as can be gleaned from my vitae. Most importantly, I have been blessed to have had the joy of teaching, mentoring, helping and inspiring young and older individuals who are my former students (in every sense of the word, whether in grammar school, high school, college, or as educators). Wherever I go and whatever I do, my students specifically are an important part of my professional and personal legacy. My successes, have included not only the long list of awards in my vitae, but especially and most importantly the long and intricate track record of my students and their outcomes. I am humbled by their demonstrative expressions of gratefulness and love and have been told by many former students, that their successes are my successes.

Please see attached emails from two recent graduates who have written to thank me for everything they have become and aspire to in the future. One email is from a recent former student, (Junior in high school) effusively thanking me and philosophizing about what a tiny world we live in. She was in amazement how in such a setting (she was at Florida International University receiving a Science Fair award) she ran across others she felt, I have deeply and memorably touched. She includes an administrator and science department chair in her email as well as herself in the group of those who have been touched by Mrs. Adams. Maria Suarez Nieto as a high school junior and former 7th and 8th grade student of mine expresses in this email how both the administrator and educator, are a part of my testament as she herself feels she is. A testament to a very rich and beautiful life which is by no means coming to an end but reaching a new zenith filled with exciting

opportunities and successes. Most importantly, a catalyst offering help, expertise, knowledge, guidance, love of teaching, and hopefully inspiration to administrators, educators, and most importantly to the students.

I have taught, consulted, administered, mentored, created curriculum, have been department chair, principal and an awarded educator for private schools to the Archdiocese of Miami with almost 40,000 students in 60 schools. I have also taught, mentored, have been department chair, and consulted in committees for Miami Dade County Public Schools. A school system with a total of almost 350,000 students and the Nation's fourth largest school district. For the State of Florida I have been invited on numerous occasions to participate in determining items (Item Review) for the FCAT science and for Biology End Of Course Exam as well as in establishing standards scores for the Biology EOC to be passed by legislators and applied to the Bio EOC for Florida. I was invited to speak at the National Institute of Environmental Health Sciences in Durham North Carolina (Summer of 2006) to Academia including; university professors, scientists, politicians, and administrators on creating curriculum with both depth and rigor and instituting the first high school course of its kind in the United States on Environmental Health. It was at this meeting that I was humbled and honored by the same administrators, professors and scientists to represent them and to become their spokesperson to the then Secretary of the NIEHS, Dr. David A. Schwartz.

I retired from the private school sector after 35 years of service and found a home in paradise in a place called Palm Coast. My husband and I decided to buy a home as a second home and enjoy it as we decided what we would be doing and while still living in Miami. My retirement lasted 3 weeks, I was yearning to go back to teaching. It was at that point after speaking with my husband that I decided to go back, but this time in the Dade County Public Schools system. At the time, I spoke with one of many former students in the Public School System, Shannon Gottardi. Shannon who was Vice Principal of Curriculum offered me a position teaching science at Southridge High School. I however decided to accept a position at Homestead Senior High even though they were farther from my home they were the first to have contacted me and to offer me a position also teaching science. I mentioned to Shannon I did not want as I was beginning a new career in public schools, to be the reason for her principal or for her to get into a bidding war with another school. As a side note, Shannon today is the Executive Director for ESE Fiscal Operations for all of Miami Dade County Public Schools.

I started my public school career at Homestead Senior High School teaching; Biology Honors, Anatomy Physiology Honors and AP Biology to sophomores, juniors and seniors. Homestead Senior is considered to be a

challenging school within the Dade County system. This opportunity was a tremendous blessing and with the help of God and my background it was an enriching humbling experience. I was told by administrators and the Science Coach that the students were transformed and academically began to perform exceptionally well. Their gains were not only academic where they went from a 3% passing rate to a 65% in the time I was there. But, the transformation was not only academic, it extended to their personal lives as well.

The students found themselves studying, interested, engaged, receptive and looking forward to coming to class. After a year and great distance from home I found it necessary to seek employment at a school closer to home. During my stay at Homestead Senior I was named Science Teacher of the Year by my peers and students. Vice Principal Ileana Valdes offered me the Nursing Magnet for the following year and the transfer to a newer part of the school with newer equipment if I would stay. I was also invited to participate in the Item Review Panel in Jacksonville by the State and offered a Science Coach position at South Dade Senior High by then Regional Head Maria Mayo. I graciously turned down both positions the one for Homestead and the one for Science Coach since my commute would take over 60 minutes each way.

Currently, and for the past 8 years I have been teaching at Devon Aire K-8 Center where I have taught ESE, gifted students, Earth Science, and Comprehensive Science. I am currently teaching Comprehensive Science II to Gifted Students, Honors Comprehensive Science III, Physical Science Honors and Biology Honors. I have been Department Chair, Science Fair Chair, continue to be invited to Item Reviews by the Department of Education in Jacksonville, Tallahassee, and the Florida Standards Alternate Assessment meeting in Orlando, February 14 and 15, 2017. I have been voted Science Teacher of the Year for both Devon Aire and Miami Dade County Public Schools. My students perform admirably attaining a 90% plus passing rate for FCAT and a 99% passing rate for the Biology EOC. Most importantly, these students have shown great personal growth and successes in their continued education in high school and college.

Since beginning my public school career I have been asked to enter the principal pool, inclusively, when there have been openings in Flagler County for a Principal I have thought about applying. I never did, but I was compelled to apply for Superintendent since I feel I will have a much greater impact on many, many more students and educators. I hope to be given such an opportunity to become your next Superintendent of Schools.

I am eagerly and with great passion looking forward to the next stage in my life where I might be able to impact in a positive way even more students, parents, teachers, and administrators. I am attaching besides the two emails from former students and a letter from another very grateful student a power point which I show at the beginning of each year to all my students along with Ben Carson's *Gifted Hands*. The power point is a representation of former students, their successes, achievements and where they are today. Dr. Ben Carson's *Gifted Hands* is also shown, explained and discussed. It is here, at the beginning of the year where I forge relationships with my students, get to know them and ultimately explain how we are the only ones that are responsible for holding ourselves back. If Ben Carson could do it and all my previous students can do it then they too can reach beyond their dreams.

I am also attaching conversations between myself and Domenick Russo on preparations for my last Leadership Training for the Archdiocese of Miami. And finally, a picture and dedication from the first and only Hispanic (at the time) Commander of the United States Nuclear submarine The Greenville. I am very proud of all my students, I am especially proud of this young man for so honorably serving our country.

Sincerely,

Martha C Adams

It is my pleasure to write this letter of recommendation for Mrs. Martha C. Adams, a candidate for superintendent of schools. Mrs. Adams has been an outstanding educator for over 42 years. Her extensive experiences educating students in both Miami-Dade Public Schools and Archdiocese of Miami Schools, exemplifies her superior dedication to the profession. Her commitment as an educator has also been far reaching, as she has worked closely in the areas of teacher development, curriculum and assessment development at the district and state levels, as well as a professor with several local universities. It has been a great pleasure to know and work with Mrs. Adams. She exemplifies all of the qualities that not only make her a wonderful teacher, but also an excellent candidate your superintendent of schools.

As a highly effective educator, with an impressively high percentage rate of student passing scores, as well as her VAM scores that range from of 90%-100%, Mrs. Adams creates an atmosphere of acceptance, trust, and respect in the classroom. Her empathy and sensitivity to the student's needs enables her to assist the students not only in their emotional growth, but also in the educational growth. With patience and understanding, she challenges her students to think and achieve to their fullest potential. Her lessons are dynamic and innovative, and she encourages students to take an active role in the learning process. She has a great rapport with students and is a positive role model, one that many students seek throughout the rest of their lives. It has been amazing to witness how many of her past students keep in contact with her to share both personal and professional growth, which they attribute to having had her as a teacher. The magnitude of her impact on teaching and learning is often immeasurable.

Mrs. Adams is also a team player. She works very well with her peers and often provides the spark necessary to motivate her co-workers. She is enthusiastic and very well-liked by her fellow staff. She is a highly organized and efficient person with great oral and written communication skills. She is a hard worker and extremely conscientious. Through her dedication, Mrs. Adams has demonstrated that she has the ability to focus and follow-through on any endeavor she partakes in. It is without hesitation that I enthusiastically recommend Mrs. Adams, as your next superintendent of schools.

Sincerely,

Ms. Ana Pachon-Reboredo
Assistant Principal

To whom it may concern,

This letter of recommendation is for Martha Adams for the position of Superintendent of Schools for your district. I have known Martha not only as a co-worker, but a parent as well. As a co-worker I find her to be an extremely organized teacher who develops inspiring relationships with her students. As a counselor at our school, I have seen countless students come back to her classroom over the years to visit and share with her how very much they miss her. I have also often overheard students speaking about how much they love her class and want to study hard for upcoming tests so as not to disappoint. Martha has that special combination that instills in her students not only a love for her, but the desire to work to their full potential. Her enthusiasm for teaching and learning is infectious and carries over to her students.

In addition to being a co-worker, Martha has been my son's teacher for the last two years. She has instilled in him an interest in science that I have never seen before. This interest however is not only limited to science. Martha has a way of incorporating different fields within her lessons. Her passion for learning has even inspired my son to look up information on his own to expand on what is being discussed in class to further his knowledge. It has been a joy listening to him tell me about all the things he is learning from her class, not only about science, but the world itself. He has even gone so far as to create power points to share with her.

Martha not only has a talent for teaching her subject area, but also prepares her students to be successful in life beyond our middle school walls. Martha is one of the most dedicated and hard working teachers I have had the pleasure of working with and I feel humbled to have worked with her and honored that she was able to touch my son's life.

While I would hate to see her leave our school, as a huge hole would be created, I do believe she is meant for more. Her background, experience, knowledge base, as well as high skills set lend her to be perfect for this position. In this position I feel that Martha would truly be able to spread her wings which would enable her to have a much more widespread impact. I give her my unconditional recommendation.

Please feel free to contact me with any questions.

Sincerely,

Jill Dawson

To Whom It May Concern:

I am delighted to write this letter in strong support of Mrs. Martha C. Adams' application for the position of City of Palm Coast School Superintendent. It is a privilege to count Martha as a trusted friend since 2000 and I have observed her continued personal and professional success over the ensuing years. Martha is an outstanding, compassionate, and generous individual of exemplary integrity. She is a woman of many talents who is passionate about her career in education. Martha has dedicated her life to imparting her love of learning and knowledge to all her students, fostering an environment in which students can flourish. She takes pride in her profession and seeks to contribute to the success of the school by being on the leading edge of her discipline. She has the highest standards in all she does and she motivates others to pursue excellence. I believe these attributes make her an ideal candidate to guide the future of education in the Palm Coast region.

Martha works tirelessly to effect change for the benefit of her students. She applies her vast experience to maximize student achievement. Martha is continuously researching new topics and presents findings in ways to help the students develop the critical thinking skills they need to excel in academics, professional careers, and in life. She is a role model for her students, motivating them to consider careers in STEM. She has mentored many students, providing guidance to help them successfully enter desired programs in health related professions as well as other professions, and she maintains close relationships with many of her former students. For example, on a trip to the west coast of Florida we made a stop to visit a former student who is a dentist. She enthusiastically shared the impact that Martha had made on her life.

Martha has broad knowledge and she has served with wisdom and distinction in private and public schools. In addition to being a leading educator, she excelled as a department chair and summer school principal demonstrating leadership qualities and mentoring younger faculty. Martha is well respected and has been invited to serve on several committees to contribute to improving education in Florida and she is an active member in educational organizations as noted in her CV.

Mrs. Martha C. Adams has earned success professionally, both as an exceptional role model and as a great human being, and I strongly endorse her application for the Superintendent position. Martha's ability, commitment, and outstanding experience will enable her to make a positive and enduring impact on the schools and students in Palm Coast.

I would be delighted to provide additional information. Please don't hesitate to contact me.

Sincerely,

Esther V. Lopez

Florida International University
Herbert Wertheim College of Medicine, Academic Affairs

To Whom It May Concern:

I would like to take the time and share my thoughts and professional opinion towards Mrs. Martha Adams.

Mrs. Adams comes to Dade County Public Schools with 34 years of scientific teaching experience from the private school sector. In my 17 years of teaching experience, I have rarely seen such a self assured, intensely knowledgeable and pedagogical sound instructor. In addition to her theoretical-like teaching style, she has sound classroom management skills. When you walk into any of her classrooms you would think that you were walking into a gifted setting. It is evident she treats all her students with respect because I have observed her students' in other classes and their demeanor is quite different.

Mrs. Adams has such an ease in front of the classroom. She effortlessly employs differentiated learning and technology and makes every effort to create a classroom environment that supports the following: active learning, critical thinking, student centered and world based connectivity. In other words, she makes a three kilogram scientific textbook "come alive."

During her first year of public school teaching she has had outstanding results. She was the only instructor that participated in Dade County Science Fair and one of her student's placed third. In addition, it has been documented that her biology students have increased their test scores by almost 70% in less than half a year, as indicated on her IPEGS evaluation. Mrs. Adams has been nominated for Science Teacher of the Year and as Dade County representative to visit Tallahassee and assist in creating new assessments for the end of year exam for Biology for the State of Florida.

It is clearly evident that Mrs. Martha Adams will bring structure, knowledge and leadership to any program that she solicits. It is with great pride that I recommend Mrs. Adams to your science program.

Regards,

Dr. Karen Helding

Subject: To the greatest science teacher...

Good afternoon Mrs. Adams,

Last summer, I received the tremendous opportunity to work in a research lab directed by Dr. Marisela Agudelo at the FIU Herbert Wertheim College of Medicine. With the research project I conducted, which was based on preventing the build up of reactive oxygen species (ROS) triggered by the abuse of alcohol in dendritic cells, I participated in not only the regional, but also the state and international science fairs.

Today, I found myself attending the "STEAM" scholar banquet, where they award the achievements of students in the STEM fields, accordingly. My high school received a pretty cool trophy (if i do say so myself), which they will keep as a piece of their history and reminder of my achievements in the field of science.

So, why am I telling you all of this?

Curiously, one of the other school's administrators that sat at my table kindly asked where I attended middle school, and I of course stated Devon Aire. Her eyes immediately widened as she asked if I had ever taken a course with you; with a smile on my face (and mental note of how small this world is), I answered yes. I could not help but mention just how important you had been in influencing my future in science. With a wonderful look of satisfaction, the woman then introduced me to a teacher behind us, who, coincidentally, had also been one of your students when you taught at a private school.

With a huge smile, the teacher said to me "Mrs. Adams is the reason I became a science teacher".

At that moment, I thought to myself "Wow, if it wasn't for Mrs. Adams, both of us, and probably many others, would have a completely different life..."

So let me get to the point of me writing you this lengthy message.

When I took biology as an 8th grader, I hadn't yet discovered exactly what I wanted to focus on in the future; I was good at school, but I had yet to find anything that truly amazed or sparked a passion in me. I wasn't worried yet though, since I still had high school to figure it out, so I really didn't think much of it. However, lo and behold, you introduced us to the body in such a creative and simple way. Oh how I absolutely fell in love with it.

From that moment on, medicine has become my passion, and my future. If it was not for you Mrs. Adams, I probably would not be in this medical magnet high school nor have pursued this research project or received this scholar award. I cannot thank you enough for being my science teacher, and pretty darn good one too. I would like to thank you for exposing me to the biology of the human body, for helping me dissect my first frog, for showing me how mind blowing the world of science is, and for being one of the most important keys in unlocking my potential in the fields of medicine and research.

This summer, I have been selected to be a part of a paid internship at the University of Miami Leonard M. Miller School of Medicine in association to the HHMI high school scholars program, where I will continue to further my career as a young scientist with the guidance of Dr. Michal Toborek.

Subject: I MISS YOU MY DEAR<3333333333

Hello my dearest Mrs. Adams! I think you know who this is... :)

I wanted to say hi to you and pleasantly surprise you with my current accomplishments since I think it's only fair I keep you up to date on the fruits of YOUR hard work with the twitty, pompous, entitled and immature student that I was when you had me 2 whopping years ago! Time flies, huh?

I sat down to take the PSAT test a while ago and to my surprise and dissatisfaction I received a score of a 1080- albeit it's acceptable score, I wish I'd done better. However, I have received an abundance of correspondence from colleges and universities and programs, including Nova Southeastern University, Stanford, and a spot as one of the 17 students (I'm supposed to pose as a representative for Miami Dade) in some medical program, which I'm guessing branches off into psychology since they travel to Alcatraz, which I don't think is very smart and quite frankly, believe it's a scam.

However, I don't let those flatter my ego at all. What makes me proud of myself is the level of conscientiousness and respect I have now, which I wish I would've given you. This is my sophomore year in iPrep at Felix Varela, and I am on the road to becoming eligible for the National AP Scholars thingy magigy. I plan on taking 5 AP classes next year in addition to joining the A.P. Capstone program because I have taken A.P. Psychology and A.P. Environmental Science so well, hunger for knowledge like no other, and have developed a great discipline with which I accredit to you, my beloved former teacher and present inspiration :). I believe this is the near beginning of the road for me, and I want to thank you for molding me into the human that I am today. To be quite honest with you, I would be no where near I am today had it not been for your help, as well as Mrs. Shama's help and Mrs. Glee's, my dearest Mrs. Adams.

I hope all is well with you, all is well with me for sure!
Don't worry about the advances in my academics that I plan on taking, I can assure you I have not bitten more off than I can chew, or at least for now I can assure you that. When I get there it might be a different story, hahaha. I will never forget your struggle with me Mrs. Adams: all the days you'd strip me away from my favorite classes to bind me to a chair to stare at a screen of Edgenuity, the day you made me throw away the oatmeal I had skipped your class for- you were indisputably **hostile** with me, hahaha, (just joking) and I've grown to greatly treasure and appreciate those moments, albeit that's not exactly how I felt then. I will always remember you, and I'm one of the multitude of students that adores you and feels exactly this way!

Blessings to your family, blessings to your present classes and future students. I was supposed to visit earlier and I haven't, but when I do, you present me those students that are acting how I was- I will gladly give them a verbal ass-whooping, because if there's anything I've retained it's what you taught us with the film The Count of Monte Cristo: the only thing that can't be taken away from you is your knowledge, and I am so working at it to do great things in the world! I

have great plans and without you, Mrs. Adams, they wouldn't have existed. I would've been in a gang somewhere in Opa Locka, attending North Miami Senior High living with my father. But not today and not ever because I proudly have you as an inspiration and role model.

You certainly are a great person in my book and I will never ever, ever, ever, ever forget you. I don't promise a soon visit, but it's coming.

My best wishes and blessings to you and your family,
Viviam Chiu, your favorite, now refined, cubanasa😙

Kindest Regards,
Chiu, Viviam C.

Dear Mrs. Adams,

Over the past three years you have been my middle school science teacher at Devon Aire K-8 center and I could not be any more grateful. Over these three years I have learned more than I ever imagined I could. Your method of teaching and ability to integrate many different subjects into a science class is remarkable. You have taught me to see the world differently; to see that there is always more than meets the eye. You have taught me how to research and find my own opinion, to question everything and believe what I know is true. Throughout these three years you have shown us what the general public wouldn't know. Though sometimes the truth can be frightening, I understand you only want what's best for people wellbeing and to inform them of many unthinkable dangers to avoid harm. I love learning new things and I love being able to talk about what I've learn when I'm not in school. In biology I've learned about the many wonders and the beauty of life. In the previous years I've learned about the Earth and Space, the final frontier. I do not take after my parents as a doctor but I had a legitimate interest and desire to learn more about the body and other living creatures in your biology class. You have made a science that I never thought I'd be interested in fascinating.

At the beginning of sixth grade I was a lousy kid, never taking anything seriously and lacking order. I had no interest in learning and I cared very little for my grades because I was always a B student, I had never gotten even a straight A report card at the time. One the first day of middle school I thought science was going to be a regular reading out of the textbook type of class and I had little interest. Your teaching sparked my interest in the world and the cosmos. I realized that science doesn't have to be the boring reading and answering questions that it was before. You managed to implement so much into your class that I found myself learning about history, art, politics, and even other fields of science, while only in sixth grade. I felt so much smarter and curious that I started reading and learning on my own. I started reading and watching the news while noting apparent biases and formulating my own views on certain issues and topics. I started doing research into what I would want to do as an adult. I was opened up to a new world of knowledge and saw that there is so much more to life than what's written in the state textbooks. I cannot thank you enough for putting me on the path I am now.

As a young child I had a fascination with space. I used to build ships with Lego kits and even design my own ships. However, this fascination dwindled as I started playing video games and lost a connection with the world. I never tried hard to do good in school and only stayed

healthy by playing soccer. Being in your class gave me the motivation to move on and try harder to succeed not only academically, but also in life. Now I want to pursue a career in the space industry and want to become an Aerospace engineer. I've been told that now is a good time for that kind of career as humanity continues to advance in technology rapidly. I want to be able to make a difference in the world, I want to be one of the engineers that gets man on Mars and beyond. Currently I seek a job at Lockheed Martin or NASA though from what I've been told Lockheed Martin is the better choice for me. I also do not plan on remaining in Florida once I've completed high school as I believe I have more opportunities living in Texas where the majority share my political views and both NASA and Lockheed Martin facilities are present. I hope to complete college there if I don't get into a university like MIT or another big engineering university. I understand that I'm young and I've got plenty of time to decide what it is I will do when I'm older but I believe it's good to have a plan set and a goal to work towards.

Now that it is time to head on to high school I am glad to be attending MAST Academy in Key Biscayne. It is most definitely an excellent school and nationally recognized for its excellence. I know there's no better place for me than MAST. The campus is beautiful, the teachers are very good, and I will finally be able to meet kids that share similar interests with me. I want to learn everything I can about engineering and do all I can to get the highest marks in as many classes as I can. I know that taking so many advanced classes will be tough but I will do my best and hopefully it will pay off in the future. I will take a musical ensemble class to help me stay mentally fit as playing violin reduces stress for me. I know I'll be alright and that I've been well prepared to deal with these classes and new environment. My almost weekly scouting activities will also help because sometimes its nice to go outside and spend time away from increasingly complex schoolwork.

It saddens me and many others that you can no longer be our teacher but I will ensure that everything you have taught will not go to waste. I am determined to succeed and make a difference in the world one day, and I will never forget you and how much you've inspired me with your immense knowledge and dedication to helping others succeed. In high school I will improve my socializing skills and be more open about everything I know so I can help others and act as a role model for the younger students who are also determined to learn and make a difference. When they ask how I know so much, I will not hesitate to tell them about your teaching and ability to inspire. I thank you for showing me my true potential and working to get me to perform my best. Being accepted into such a prestigious high school and recognized by the lead teacher for my academic achievement is proof that you've already succeeded in doing what you've set out to do. Thank you Mrs. Adams, you have no less than a blessing by God himself. You and your contribution to me and so many of your students will never be forgotten.

Sincerely,

Neyton M. Baltodano, Senior Class of 2016, Devon Aire K-8 Center

- Invited to speak at the National Institute of Environmental Health Sciences in Durham North Carolina summer 2006 on creating first ever high school course in Environmental Health in the United States.
- Passion for teaching.

American Stars of Teaching

Where are they now?

The young woman in the previous picture Ms. Diana Rivera, is a lawyer and former student who represents a series of Non-profit companies in Washington D.C. I was humbled at her attendance and desire to be with my family and I on this very special day where I was so tremendously honored.

The subsequent young people are all former students that I have been blessed to have had the opportunity to teach. They are among thousands that are currently not only successful but mindful of their responsibility to other individuals as well as to their country. I am very proud of each and every one of them.

It is my pleasure to write this letter of recommendation for Mrs. Martha C. Adams, a candidate for superintendent of schools. Mrs. Adams has been an outstanding educator for over 42 years. Her extensive experiences educating students in both Miami-Dade Public Schools and Archdiocese of Miami Schools, exemplifies her superior dedication to the profession. Her commitment as an educator has also been far reaching, as she has worked closely in the areas of teacher development, curriculum and assessment development at the district and state levels, as well as a professor with several local universities. It has been a great pleasure to know and work with Mrs. Adams. She exemplifies all of the qualities that not only make her a wonderful teacher, but also an excellent candidate your superintendent of schools.

As a highly effective educator, with an impressively high percentage rate of student passing scores, as well as her VAM scores that range from of 90%-100%, Mrs. Adams creates an atmosphere of acceptance, trust, and respect in the classroom. Her empathy and sensitivity to the student's needs enables her to assist the students not only in their emotional growth, but also in the educational growth. With patience and understanding, she challenges her students to think and achieve to their fullest potential. Her lessons are dynamic and innovative, and she encourages students to take an active role in the learning process. She has a great rapport with students and is a positive role model, one that many students seek throughout the rest of their lives. It has been amazing to witness how many of her past students keep in contact with her to share both personal and professional growth, which they attribute to having had her as a teacher. The magnitude of her impact on teaching and learning is often immeasurable.

Mrs. Adams is also a team player. She works very well with her peers and often provides the spark necessary to motivate her co-workers. She is enthusiastic and very well-liked by her fellow staff. She is a highly organized and efficient person with great oral and written communication skills. She is a hard worker and extremely conscientious. Through her dedication, Mrs. Adams has demonstrated that she has the ability to focus and follow-through on any endeavor she partakes in. It is without hesitation that I enthusiastically recommend Mrs. Adams, as your next superintendent of schools.

Sincerely,

Ana Pachon

Ms. Ana Pachon-Reboredo
Assistant Principal

To Whom It May Concern:

I would like to take the time and share my thoughts and professional opinion towards Mrs. Martha Adams.

Mrs. Adams comes to Dade County Public Schools with 34 years of scientific teaching experience from the private school sector. In my 17 years of teaching experience, I have rarely seen such a self assured, intensely knowledgeable and pedagogical sound instructor. In addition to her theoretical-like teaching style, she has sound classroom management skills. When you walk into any of her classrooms you would think that you were walking into a gifted setting. It is evident she treats all her students with respect because I have observed her students' in other classes and their demeanor is quite different.

Mrs. Adams has such an ease in front of the classroom. She effortlessly employs differentiated learning and technology and makes every effort to create a classroom environment that supports the following: active learning, critical thinking, student centered and world based connectivity. In other words, she makes a three kilogram scientific textbook "come alive."

During her first year of public school teaching she has had outstanding results. She was the only instructor that participated in Dade County Science Fair and one of her student's placed third. In addition, it has been documented that her biology students have increased their test scores by almost 70% in less than half a year, as indicated on her IPEGS evaluation. Mrs. Adams has been nominated for Science Teacher of the Year and as Dade County representative to visit Tallahassee and assist in creating new assessments for the end of year exam for Biology for the State of Florida.

It is clearly evident that Mrs. Martha Adams will bring structure, knowledge and leadership to any program that she solicits. It is with great pride that I recommend Mrs. Adams to your science program.

Regards,
Dr. Karen Helding

To Whom It May Concern:

I am delighted to write this letter in strong support of Mrs. Martha C. Adams' application for the position of City of Palm Coast School Superintendent. It is a privilege to count Martha as a trusted friend since 2000 and I have observed her continued personal and professional success over the ensuing years. Martha is an outstanding, compassionate, and generous individual of exemplary integrity. She is a woman of many talents who is passionate about her career in education. Martha has dedicated her life to imparting her love of learning and knowledge to all her students, fostering an environment in which students can flourish. She takes pride in her profession and seeks to contribute to the success of the school by being on the leading edge of her discipline. She has the highest standards in all she does and she motivates others to pursue excellence. I believe these attributes make her an ideal candidate to guide the future of education in the Palm Coast region.

Martha works tirelessly to effect change for the benefit of her students. She applies her vast experience to maximize student achievement. Martha is continuously researching new topics and presents findings in ways to help the students develop the critical thinking skills they need to excel in academics, professional careers, and in life. She is a role model for her students, motivating them to consider careers in STEM. She has mentored many students, providing guidance to help them successfully enter desired programs in health related professions as well as other professions, and she maintains close relationships with many of her former students. For example, on a trip to the west coast of Florida we made a stop to visit a former student who is a dentist. She enthusiastically shared the impact that Martha had made on her life.

Martha has broad knowledge and she has served with wisdom and distinction in private and public schools. In addition to being a leading educator, she excelled as a department chair and summer school principal demonstrating leadership qualities and mentoring younger faculty. Martha is well respected and has been invited to serve on several committees to contribute to improving education in Florida and she is an active member in educational organizations as noted in her CV.

Mrs. Martha C. Adams has earned success professionally, both as an exceptional role model and as a great human being, and I strongly endorse her application for the Superintendent position. Martha's ability, commitment, and outstanding experience will enable her to make a positive and enduring impact on the schools and students in Palm Coast.

I would be delighted to provide additional information. Please don't hesitate to contact me.

Sincerely,

Esther V. Lopez

To whom it may concern,

This letter of recommendation is for Martha Adams for the position of Superintendent of Schools for your district. I have known Martha not only as a co-worker, but a parent as well. As a co-worker I find her to be an extremely organized teacher who develops inspiring relationships with her students. As a counselor at our school, I have seen countless students come back to her classroom over the years to visit and share with her how very much they miss her. I have also often overheard students speaking about how much they love her class and want to study hard for upcoming tests so as not to disappoint. Martha has that special combination that instills in her students not only a love for her, but the desire to work to their full potential. Her enthusiasm for teaching and learning is infectious and carries over to her students.

In addition to being a co-worker, Martha has been my son's teacher for the last two years. She has instilled in him an interest in science that I have never seen before. This interest however is not only limited to science. Martha has a way of incorporating different fields within her lessons. Her passion for learning has even inspired my son to look up information on his own to expand on what is being discussed in class to further his knowledge. It has been a joy listening to him tell me about all the things he is learning from her class, not only about science, but the world itself. He has even gone so far as to create power points to share with her.

Martha not only has a talent for teaching her subject area, but also prepares her students to be successful in life beyond our middle school walls. Martha is one of the most dedicated and hard working teachers I have had the pleasure of working with and I feel humbled to have worked with her and honored that she was able to touch my son's life.

While I would hate to see her leave our school, as a huge hole would be created, I do believe she is meant for more. Her background, experience, knowledge base, as well as high skills set lend her to be perfect for this position. In this position I feel that Martha would truly be able to spread her wings which would enable her to have a much more widespread impact. I give her my unconditional recommendation.

Please feel free to contact me with any questions.

Sincerely,

Jill Dawson
