

Environmental Site Services, Inc.

"Thru Service We Grow"

2-20-16

Dear Mr. Collins,

As per our discussion regarding the Corporate One Demo, Environmental Site Services has been in contact with DBPR (Department of Business and Professional Regulations), and we were informed that we are allowed to have more than one qualifier for the company. The additional qualifier is Jonathan Reingold whom is licensed over 10 years with DBPR. I am working with Kevin Trim of Professional Licensure Services located in Tallahassee Florida to submit all required documents to DPBR. They were completed on Friday, February 19th, 2016, and will be submitted to DPBR Monday, February 22nd, 2016.

I anticipate obtaining qualifier approval and updated license information for Environment Site Services this week, and I will forward a copy to you upon receipt.

I apologize for any inconvenience this may have caused, and we look forward to commencement of this project.

Sincerely,

Nancy Morea

President

Environmental Site Services
