Mr. Andrews or to whomever this may concern,

Thanks for this information. I have yet to hear any resemblance of a plan for my son's education over the next 4 days or however long it is, at this time, that you will be forcing my healthy son to comply with a mandated quarantine and banning him from attending school and his classrooms. I need to know this information ASAP along with full instructions on how he is to remain connected with his teachers. What is the curriculum for my son for today, tomorrow, Wednesday, Thursday and Friday? How is he to remain connected? We have been given an iPad with no virtual learning instructions. What now?

I am being told he is forced quarantined until the 21st of August due to the stated reason that he "may have" been in contact with someone who "may have" covid. There are a lot of "may haves" but no plan has been made and or provided to me concerning my son's education at this time.

My son was improperly treated in my presence as I was spoken down to by you in front of my son. My son was also mistreated by being placed in isolation in a "covid room" which you referred to as a "quarantine room". My son told me that he was not allowed to speak to the other students in the room to share their stories and or Information. My son stated there was a person in the room to monitor the students. My son is perfectly healthy and this treatment of my son today is absolutely egregious.

My son is new to this county and this school. He was thrilled to start school this year in 7th grade after spending a year and a half in virtual school. My son doesn't know anyone and you all made him feel awful just for showing up to learn in school. He wasn't scared of anything but all of your behavior to him and in front of him has him very upset. As a result, I am very concerned over everything I have witnessed today.

The lack of professionalism displayed today in my presence and as my child witnessed and recounted to me is absolutely unacceptable. I will be sharing my story with everyone. As I stated I am not trying to cause problems, I am a concerned mother. You told me that I am trying to cause problems and closed the door in my face in front of my child. This is not appropriate behavior for a principal to display towards a parent and in front of a student at their school.

I look forward to receiving the much needed information on my son's curriculum for this week and however long he is to be forced into quarantine and banned from attending school. My son, at no fault of his own or doing, does not deserve to be punished over this by falling behind in his education.

Sincerely,

Good afternoon Mrs. Bowman,

I completely understand your concerns. Currently, your student will be excused from school until August 21st, unless we hear something different from the DOH. Any work he is unable to complete while at home may have up to the same amount of days that he was absent to turn in after his return to school.

With our student ipads he will have his login to Schoology. His teachers may post work, content and resources for students to complete digitally. He and his teachers can communicate through Schoology or our school email.

Let me apologize for any improper treatment to you and your son today.

Our priority is the safety and security of our school so our scholars can have a positive learning experience.

Please let me know if there is anything else I can assist you with.
