

Dear Michael Lagasse,

September 24, 2021

I would like to thank you for all the great knowledge that you've shared with me. It has been an awesome experience working for Flagler County once again. Being a Land Management Specialist allowed me to see many parts of Flagler County that most will never get the pleasure of seeing. Being part of the Land Management Team was a reward in and of itself.

Public Service has been my passion my entire adult life. Land Management was an excellent opportunity for me to serve in a capacity, that I had never before experienced. What an awesome and rewarding field this is, to get paid to experience nature. I've learned about so many plants and a lot about Prescribed Fire (thanks to you, Tim and Michael Orlando and our cooperative partners). I thoroughly enjoyed the time I was able to work here.

Due to a serious family crisis, I must draw my experience here, to it's conclusion. I can take the next couple weeks finishing any open projects, organizing and returning any equipment as well as learning material currently in my possession. My last day will be October 8th and if you agree, I will use up any remaining vacation time I have, prior to that event. Once again, thank you for this opportunity.

Sincerely,

Robert S. Detherow

FCBOCC Land Management Specialist
