

# TIMUCUAN TECHNOLOGY

## Fishing Technology

DATE: September 28, 2018

TIME: 2:00 PM

LOCATION: **Gamble Rogers State Park**  
**3100 S. Oceanshore Blvd**  
**Flagler Beach, FL**

*Courtesy of Theodore Morris*

Fish and other coastal resources were a crucial part of Timucuan diets. Archaeologists can learn about pre-Columbian fishing technology through artifacts like fish hooks and net gauges, as well as finding the remains of the fish themselves. Participants will explore various artifacts and fishing techniques through hands on activities.

Program is free with park admission.
