The offender denied drug use and stated, "my boyfriend uses cocaine, but I don't use cocaine." Because the offender denied use, this officer sent the offender's drug test result to Alere Labs. (4) **RECOMMENDATION:**

A warrant is being requested for the offender. As mentioned herein, the offender tested positive for Benzoylgonine-Cocaine Metabolite and denied use. The offender's test result was confirmed by Aetec Labs to be positive for drug use. The offender has violated her order of community control by failing to comply with the stipulations in her orders: by using intoxicants to excess or possessing any drugs or narcotics, unless prescribed by a physician; by failing to abstain entirely from the use of alcohol and/or illegal drugs. This is not the offender's first-time being in violation of her probation as the offender has incurred numerous violations over the course of her years on community-based supervision. Based off the offender's previous and current behavior, the offender appears to be persistently showing a propensity for being disingenuous. This officer is respectfully recommending that the offender be sentenced to a period of incarceration deemed appropriate by the court. Should the court decide otherwise to place the offender back on community-based supervision, the offender should be considered and evaluated for the Flager County Adult Drug Court Program.

The foregoing is true and correct to the best of my knowledge and belief.
