Re: Joshua King DC# U71347

To Whom it may Concern:

Joshua King entered Faith Farm on 03/09/2026 and was unsuccessfully discharged from the Faith Farm Program on 05/05/2026. Joshua stated multiple times while being here that he was not going to participate in the religious aspects of the program. In attempt to help Joshua participate in the program we gave him some time to make adjustments to see if he would come around. However, he stated clearly that he was never going to be on board with the religious aspects of the program. Joshua was asked on 04/15/2026, why he didn't share this during his initial interview on 03/24/2024. Joshua stated he didn't know he needed to. He also stated he was under the impression this was like another program he had been to previously and didn't realize he would have to participate in the religious aspects of the program. However, during the interview the details and participation requirements were shared with Joshua. At no time did Joshua voice his lack of religious beliefs or his unwillingness to participate in them. Had Joshua voiced his position we would never have approved him for the Faith Farm program. Instead, during the interview he agreed to participate in everything that was being shared with him. At the end of April 2026, it came to our attention that Joshua had petitioned courts to be removed from Faith Farm and had a zoom hearing on 05/05/26. It was decided by our staff that Joshua would be required to exit the Faith Farm program on the date of his hearing if he was going to continue to pursue his exit request through the courts.

Sincerely,

Nikki Foxworth
