William, Attached is an updated proposal based upon our research on past shows including 2019 which Santore produced for Flagler Beach. The first proposal I saw was very old and was missing quite a bit of data. As earlier discussed this is a collaboration between Explosive Touch Enterprises and North Florida Pyrotechnics sharing our resources and man power to save The Forth of July Fireworks for Flagler Beach.

**Waterfall** – Glowing embers that fall slowly in the air, creating a willow or waterfall effect.

**Flying Fish** – An aerial effect that looks like a swarm of objects squirming through the air. This effect usually lasts only a few seconds. Fish are a type of fuse that propels itself through the air, creating a swimming effect.

**Peony** – An aerial effect that looks like a spherical ball of colored lights in the sky. A very common aerial effect on most fireworks displays.

**Ghost** - An aerial effect that creates a disappearing and re-appearing color trail new to the fireworks industry.
