On September 1, 2015 at approximately 12:22 P.M., I was contacted by FWC Officer Eric Mead, in reference to an illegal dump site. He stated that it was located 1 mile north of Matanzas Woods Pkwy on Old Kings Road in Palm Coast Florida.

I went and made contact with Officer Mead at this location and upon my arrival; I observed what appeared to be possibly 300 or more tires that were dump on the county right of way approximately 200 yards south of the intersection of Old Kings Road and Aspen Way. All the tires were covered in what appeared to be dried mud. Due to the weather conditions in this area over the last several days, we determined that the tires were dumped during the early morning hours of September 1, 2015. This is because the tires were dry and there was no standing water inside of them. There had been large amounts of rain in this area over the weekend.

We determined that it had to be a semi type dump trailer to dump such a large amount of tires like this. It did not appear that this occurred more than one time at this location. Next to the tires was a case of empty Budweiser Select 55, beer bottles, 18 bottles total. Thinking that these bottles may have been left by the suspect, I took photos of them and then process them for prints. Unlike the tires, the cardboard case was extremely wet. Some of the bottles had mold growing inside of them. I dusted the bottles for latent prints but discovered only water marks and smudges on them. It appeared that they had been there longer than the tires were. FWC officer Scott Dack reviewed video from the cameras located at the North US 1 weigh station for evidence of a truck carrying these tires but met with negative results.

I will be assisting FWC Officer E. Mead with the investigation of this incident

Nothing further at this time.
