Florida's January Employment Figures Released

NOTE TO EDITORS: *Every March, the U.S. Department of Labor's Bureau of Labor Statistics and the Florida Department of Economic Opportunity release January employment and unemployment estimates as well as revised historical data. Today's report is the result of that annual process, which is known as "benchmarking." Benchmark revisions are a standard part of the estimation process and take place at this time every year in each state nationwide. As a result of this annual benchmarking process, the release of January and February 2016 employment data is scheduled for March 14 and March 25, respectively. Also with this release an additional series, 15-000000 (Mining, Logging, and Construction), was added to the following areas: Statewide, Jacksonville MSA, Miami-Miami-Beach-Kendall Metro Division, Orlando-Kissimmee-Sanford MSA, and Tampa-St Petersburg-Clearwater MSA.*

Florida's seasonally adjusted unemployment rate was 5.0 percent in January 2016, down 0.1 percentage point from the revised December 2015 rate of 5.1 percent, and down 0.7 percentage point from 5.7 percent a year ago. There were 492,000 jobless Floridians out of a labor force of 9,764,000. The U.S. unemployment rate was 4.9 percent in January. Florida's unemployment rate has been less than or equal to the national rate for 24 of the last 38 months.

Florida's seasonally adjusted total nonagricultural employment was 8,243,700 in January 2016, an increase of 32,200 jobs (+0.4 percent) over the month. Compared to January a year ago, the number of jobs in the state was up by 263,900, an increase of 3.3 percent. Nationally, the number of jobs was up 1.9 percent over the year. Florida's annual job growth rate has exceeded the nation's rate since May 2012.

Lauderdale-Pompano Beach-Deerfield Beach (+28,300 jobs, +3.6 percent).

Note: The unemployment and job growth rates are estimates, which are primarily based on surveys created and mandated by the U.S. Bureau of Labor Statistics in cooperation with the Florida Department of Economic Opportunity.

The unemployment rate is derived from Florida household surveys conducted by the U.S. Census Bureau under contract with the U.S. Bureau of Labor Statistics. The job growth rate is derived from Florida employer surveys conducted by the U.S. Bureau of Labor Statistics.

Both estimates are revised on a monthly basis. In addition, these estimates are benchmarked (revised) annually based on actual counts from Florida's Reemployment Assistance tax records and other data.

Procedures mandated by the U.S. Bureau of Labor Statistics may result in more variable month-to-month changes. For further information, go to: http://www.bls.gov/sae/cesprocs.htm
