Barbara Federman You do realize no one is coming after your guns, don't you? Nobody cares if you have a handgun or rifle. Have four. Just don't have an AR-15. What is wrong with background checks? Background checks would not take away your Second Amendment rights but it will prevent people who shouldn't have guns from getting them

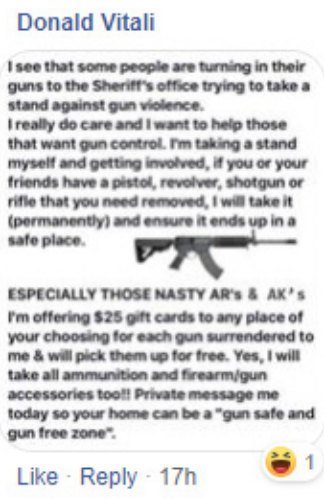
Donald Vitali



I see that some people are turning in their guns to the Sheriff's office trying to take a stand against gun violence.
I really do care and I want to help those that want gun control. I'm taking a stand myself and getting involved, if you or your friends have a pistol, revolver, shotgun or rifle that you need removed, I will take it (permanently) and ensure it ends up in a safe place.

ESPECIALLY THOSE NASTY AR's & AK's
I'm offering $25 gift cards to any place of your choosing for each gun surrendered to me & will pick them up for free. Yes, I will take all ammunition and firearm/gun accessories too!! Private message me today so your home can be a "gun safe and gun free zone".
