Subject: Graham Swamp Trail and SR100 Trail Overpass Bridge Design Project
FPID: 438635-1-58-01

Dear Mr. Cameron:

Kisinger Campo & Associates have just completed design services on behalf of Flagler County for the Graham Swamp Trail and the SR100 Trail Overpass Bridge Design Project. Design of this project by our firm was done in conjunction with the Flagler County Engineering Department. In particular I had the pleasure of working with Faith Alkhatib, Flagler County Engineer, and assisting her were Amy Stroger and Richard Gordon.

I wanted to let you know they have been one of the best clients that my Team and I have had the opportunity to work with in my 25-year career. Throughout the duration of the project they have shown the utmost responsiveness to e-mails, phone calls and messages needed to coordinate our efforts on this project. For time critical decisions, they seemed to anticipate in advance of what I might be needing and were always prompt with providing decisions where County input was needed. This was essential to staying on track with our schedule.

In summary, I would like to commend Faith, Amy and Richard for their exemplary efforts on helping the design phase of this project run smoothly and be completed in a timely manner. The Kisinger Campo & Associates Team would be honored to work with your fantastic staff any time in the future.

Sincerely,

H. Simon Hagedoorn, P.E.
