

# HOMO-LAND SECURITY?

Taken from the Philadelphia Metro 6/12/2007

News. Pentagon officials recently confirmed to a California television station that in 1994 the U.S. military considered a weapon designed to turn enemy soldiers into homosexuals.

A report by CBS 5 in San Francisco says that as a part of a military effort to develop non-lethal weapons, a proposal suggested, "One distasteful but completely non-lethal example would be strong aphrodisiacs, especially if the chemical also caused homosexual behavior."

"A bomb would be developed that contained a chemical that would cause enemy soldiers to become gay, and to have their units break don because all their soldiers became irresistibly attractive to one another." Said Edward Hammond, whose Sunshine project uncovered the plan, CBS 5 reported. The Pentagon said the idea was quickly dismissed.

If the Pentagon even considered this why do the let "gays" in our military? Don't they think it would have the same effect? I know I would not want the person, who is supposed to be watching my back, instead be drooling over my back-side!!!

In another article in the Daily Journal ; GAY OFFICER: Harassment can be lonely, gay police officers in Washington Twp & Millville are complaining about "homophobic slurs & insults from their fellow officers & superiors. I believe this fits under the same category as the military. I would not want to worry, in the same matter as above, when protecting our streets from criminals in today's society!!!

I do not believe that "homosexuals should have the freedoms our society has allowed them! Homosexuality is a SIN, CRIME & ABOMBINATION TO GOD! And in the Bible it is punishable by death. (Lev. 13:20). God is keeping his word, by killing "gays" with AIDS. The Bible also tells us ( Psalms 33:12) "Blessed is the nation whose GOD is THE LORD". Help us keep AMERICA THAT NATION!
