Your honor please Take into consideration That on Jan 2020 I was unaware of how severe my mental health was! I was recently Diagnosed with PTSD, Bipolar Disorder, and hyper thyroidism; That may have Influenced how I Reacted when I Thought my wife and unborn child were in Danger. I Reached out For help to Deal with the mental Anguish I've Been Dealing with From Traumatic Experiences in my past.

Your honor I've Accomplished many things as a young man! I have a provisional patent on an All natural hemp Based weight loss Supplement that could potentially Be worth millions! I Got my Dispensary management certification via Heron Sativa university! I was not able to finish medical Assistant school Because I lost my job For having to Attend court dates in I Got my First song played on Radio Station Beach 92.7 my Senior Year in high school.

I'm also Almost Done writing my Book "True teachings of Jesus"! Your honor I'm a community activist That uses The Accomplishments of my family to Gain leverage in making a change, Such as Getting the Drugs out of The community! I Believe Selling Drugs is Domestic terrorism! My uncle Harry Jones ran For Sheriff twice, my Grandmother is The First woman of color with Jewish / Native American Ancestry to Serve on The School Board in The last integrated county in America at a time where Flagler Bridge had a sign that says "no niggers After Dark". Her sister held the key to the city! my Grandfather & his sister own 30 units of Realstate in The county! her husband was The First Black Sheriff! my cousin owns a Radio Station in Miami! And my Grandfather Remodeled michael Jackson's house

Your honor I'm Extremely Embarrassed that this happened Because I didn't Reach out For help earlier! I'm just so Glad I did For The sake of my family, my future and now I can Benefit my country! I'm sorry I look like a minus to society! I Originally left Flagler to Get Away From The negative influences, I Ask That You Allow me to Receive therapy That my Dr. Recommended. That I can't

Your honor I have no ill will towards
The Currelli Brothers; I wish everyone can see
The misunderstanding. IF They would have never
come to confront me for no reason, and IF I was
Aware of my mental health situation none of This
would have happened! I Already have to Get
a Service Dog for protection Because I can't
have a Gun Because my mental health and I
already Alerted The Sheriff's That I receive Death
Threats From a case That Accusers Admitted to
Lying on me for no reason! I NEVER
Want to make The wrong Decision Again so I'm
not even thinking of Them, I have to much to think about
And to much going on!

Also Your honor, The Jail Does not provide
Adequate health care for my medical condition! MY
Dr. Recommended PTSD therapy But instead They lock me
in a Box and take me to Smc just to be told
I have PTSD and back into turtle suite which
violates my 8th Amendment Because it triggers Suicidal
Thoughts! They even purpously Gave me The wrong
meds (July 2nd) Because The one I was supposed
to Get wasn't There. This is medical malpractice
