**Florida's March Employment Figures Released**  
[www.employflorida.com](http://www.employflorida.com)

**NOTE TO EDITORS:**

*The production of state and metropolitan area nonagricultural employment (the state's count of jobs) from the Current Employment Statistics (CES) program is transitioning from state workforce agencies to the U.S. Department of Labor, Bureau of Labor Statistics (BLS) with March 2011 estimates being released today. BLS has also implemented several methodological changes to standardize the estimation approach across states. With this change, there may be more month-to-month variability in the employment-by-industry estimates for state and metropolitan areas. More detailed information on the changes to procedures and methodologies for producing CES estimates is available on the BLS Web site at <http://www.bls.gov/sae/cesprocs.htm>.*

**TALLAHASSEE** – Florida's seasonally adjusted unemployment rate in March 2011 is 11.1 percent, the lowest since November 2009 when the rate was also 11.1 percent. This represents 1,030,000 jobless out of a labor force of 9,251,000. The state's rate is down 0.4 percentage point from the February 2011 rate of 11.5 percent and is 0.2 percentage point lower than the March 2010 rate of 11.3 percent. This is the first over-the-year decline in Florida's unemployment rate since November 2006.

Florida's total nonagricultural employment in March 2011 is 7,205,300, an increase of 22,600 jobs (+0.3 percent) from February 2011. The number of jobs in the state is up 51,500 over the year, an increase of 0.7 percent from March 2010. It is the strongest over-the-year growth rate in the state since May 2007 when it was also 0.7 percent.

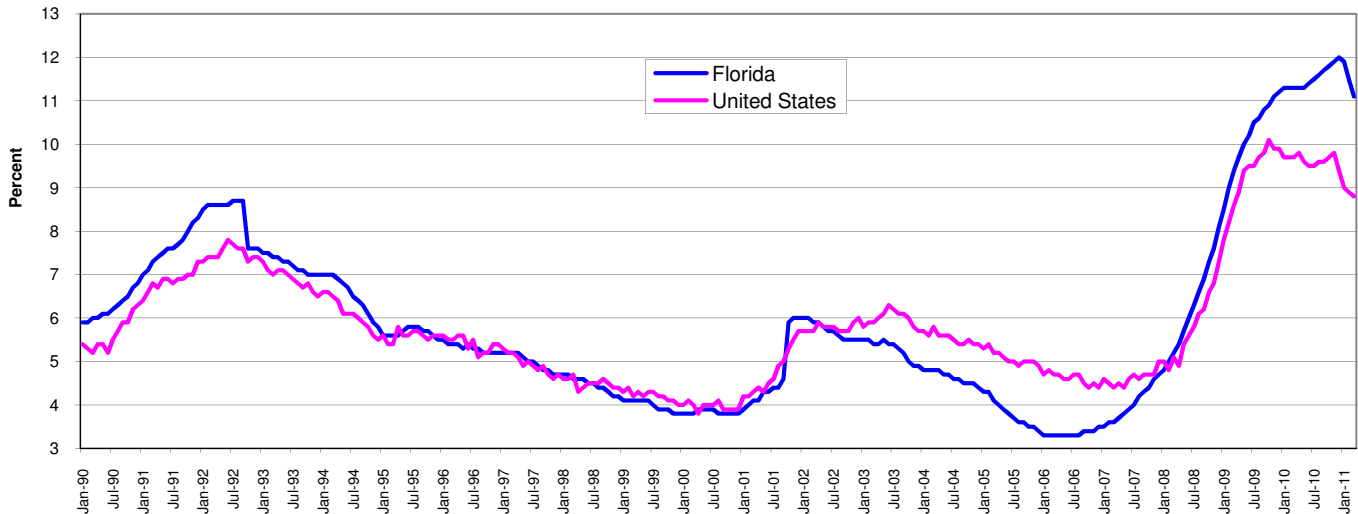

"The continued decline in the unemployment rate paired with very positive job growth provides a strong signal that Florida's economy has turned the corner," said Agency for Workforce Innovation Director Cynthia R. Lorenzo. "While there are still too many Floridians out of work, our economy is clearly heading in the right direction with Governor Scott's emphasis on job creation and economic development."

**Online Ads Increase**

Florida job postings compiled by the Help Wanted OnLine data series from [The Conference Board](http://www.conferenceboard.com) increased in March 2011, after being unchanged in February. Job postings in Florida totaled 245,858 (seasonally adjusted) openings in March 2011, up by more than 10,000 openings from the 235,211 postings in February 2011.

Florida had an over-the-year increase of 34,326 job postings compared to March 2010. Since the official end of the recession in June 2009, online job demand in Florida has increased by 87,014 jobs. Major occupational groups with the most online ads in March were healthcare practitioners and technical occupations, sales and related occupations, office and administrative support occupations and management occupations.

## United States and Florida Unemployment Rates (seasonally adjusted)

Source: Florida Agency for Workforce Innovation, Labor Market Statistics Center, Local Area Unemployment Statistics Program, in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

### Florida's Nonagricultural Employment by Industry (Seasonally Adjusted)

- The number of jobs in Florida is 7,205,300 in March 2011, up 51,500 jobs compared to a year ago. March is the sixth consecutive month with positive annual job growth since the state started losing jobs in July 2007. The industry gaining the most jobs is leisure and hospitality (+35,300 jobs, +3.9 percent).
- Other industries gaining jobs include private education and health services (+20,100 jobs, +1.9 percent); professional and business services (+12,900 jobs, +1.3 percent); trade, transportation, and utilities (+4,600 jobs, +0.3 percent); and other services (+3,600 jobs, +1.2 percent).
- These industry job gains are partially due to increases in food services and drinking places; ambulatory health care services; management, scientific and technical; food and beverage stores; and personal and laundry services.
- Industries losing jobs over the year include: construction (-14,700 jobs, -4.2 percent); information (-4,200 jobs, -3.1 percent); financial activities (-4,200 jobs, -0.9 percent); manufacturing (-1,300 jobs, -0.4 percent); and total government (-900 jobs, -0.1 percent).
- These industry job losses are partially due to weakness in construction of buildings; telecommunications; credit intermediation and related activities; miscellaneous durable goods manufacturing; and federal government.

### Local Area Unemployment Statistics (Not Seasonally Adjusted)

- In March 2011, Monroe County has the state's lowest unemployment rate (6.6 percent), followed by Liberty County (6.8 percent); Alachua County (7.4 percent); Okaloosa and Walton counties (7.5 percent each); and Lafayette and Leon counties (7.6 percent each). Most of the counties with the lowest unemployment rates are those with relatively high proportions of government employment.
- Flagler County has the highest unemployment rate (14.5 percent) in Florida in March 2011, followed by Hernando County (13.3 percent); Hendry County (13.1 percent); Marion and St Lucie counties (12.5 percent each); and Miami-Dade County (12.3 percent). Flagler County, as well as most of the other areas with the highest unemployment rates, continues to suffer long-term job losses, mainly in construction. There are 38 Florida counties with double-digit unemployment rates in March, down from 43 in February.

### Area Nonagricultural Employment (Not Seasonally Adjusted)

- Eleven metro areas of the 22 in the state have over-the-year job gains in March 2011. The areas with the largest gains are Orlando-Kissimmee-Sanford (+20,400 jobs, +2.0 percent), Miami-Miami Beach-Kendall (+11,900 jobs, +1.2 percent), and West Palm Beach-Boca Raton-Boynton Beach (+4,200 jobs, +0.8 percent).
- Of the metro areas with job declines, the areas with the largest losses are Palm Bay-Melbourne-Titusville (-3,800 jobs, -1.9 percent) and Cape Coral-Ft. Myers (-3,000 jobs, -1.5 percent).

#### Agency for Workforce Innovation

Telephone (850) 245-7105•Fax (850) 921-3223•TTY/TDD 1-800-955-8771-Voice 1-800-955-8770

[www.floridajobs.org](http://www.floridajobs.org)

**Note:** These unemployment and job growth rates are estimates, which are primarily based on surveys created and mandated by the U.S. Bureau of Labor Statistics in cooperation with the Florida Agency for Workforce Innovation.

The unemployment rate is derived from Florida household surveys conducted by the U.S. Census Bureau under contract with the U.S. Bureau of Labor Statistics. The job growth rate is derived from Florida employer surveys conducted by the U.S. Bureau of Labor Statistics.

Both estimates are revised on a monthly basis. In addition, these estimates are benchmarked (revised) annually based on actual counts from Florida's Unemployment Compensation tax records and other data.

New procedures recently mandated by the U.S. Bureau of Labor Statistics may result in more variable month-to-month changes. For further information, go to: <http://www.bls.gov/sae/cesprocs.htm>

###

An equal opportunity employer/ program. Auxiliary aids and services are available upon request to individuals with disabilities. All voice telephone numbers on this document may be reached by persons using TTY/TDD equipment via the Florida Relay Service at 711.

The Agency for Workforce Innovation is Florida's lead workforce agency and directly administers the state's various workforce and unemployment programs and the Office of Early Learning. Workforce development policy and guidance are provided by Workforce Florida, Inc. Partnering together, along with the state's 24 Regional Workforce Boards that deliver services through more than 90 One-Stop Career Centers around the state, they compose the Employ Florida network.

*The next Florida Employment and Unemployment release will be on May 20, 2011, at 10:00 A.M.*
