Act of 1871
A thread
This is Long but it will end with a MEGA BOOM!
Promise!

Start here.

With no constitutional authority to do so, Congress created a separate form of government for the District of Columbia, a ten-mile square parcel of land (see, Acts of the Forty-first Congress, Section 34, Session III, chapters 61 and 62).

The act — passed when the country was weakened and financially depleted in the aftermath of the Civil War — was a strategic move by foreign interests (international bankers) who were intent upon gaining a stranglehold on the coffer and neck of America.

Congress cut a deal with the international bankers (specifically Rothschilds of London) to incur a DEBT to said bankers. Because the bankers were not about to lend money to a foundering nation without serious stipulations, they devised a way to get their foot in the door of the United States.

The Act of 1871 formed a corporation called THE UNITED STATES. The corporation, OWNED by foreign interests, moved in and shoved the original Constitution into a dustbin. With the Act of 1871, the organic Constitution was defaced — in effect vandalized.

THE CONSTITUTION OF THE AMERICA is the constitution of UNITED STATES OF AMERICA

It operates in an economic capacity to fool the People into unknowingly and indebted to the new corporate STATES, and that it governs the Capitalization is NOT insignificant to a legal document. This seemingly has had a major impact on every of Americans.

Lies @RepAdamSchiff Flynn never discussed financial sanctions and instead showed the dignity of a true diplomat. How can you continue to lie about everything. It's so sad - just accept that you are and were wrong. Stop lying - Do it for our nation

Adam Schiff @RepAdamSchiff · May 29

Here's what the Flynn transcripts show:

Gen. Flynn secretly discussed the U.S. response to Russia's brazen election interference, and lied about it to the FBI and Vice President.

No wonder Trump and his allies are trying to re-write history,

Because the facts are so damning.

"At our urging, the Trump Administration has now declassified certain transcripts of conversations between Michael Flynn and the Russian Ambassador. It is clear why they did not release them before, when they were selectively declassifying other information.

"These transcripts clearly demonstrate that Lt. General Michael Flynn lied to the FBI and the Vice President when he denied discussing sanctions in a then-secret set of conversations with the Russian Ambassador. These calls took place shortly after the Russian government interfered in the 2016 election in an effort to help Trump win, and Flynn was engaged in trying to mute the Russian reaction to sanctions imposed by the Obama Administration over that very interference. Implied in his urging the Russians not to overreact to the sanctions over their election interference, was the idea that the Trump Administration would change course. As Lt. Gen. Flynn plainly urged the Russian Ambassador, 'Do not allow this administration to box us in right now!'

"The transcripts also reveal why Flynn was properly the subject of a counterintelligence investigation and how the DOJ's effort to dismiss the case against him is so transparently political and destructive to the interests of justice. As a result of lying to both the FBI and the Vice President, Flynn posed a severe counterintelligence risk because the Russians knew the real contents of Flynn's communications and that he lied about them

Announces Committee to Consider Subpoena Authorization Related to Oversight of FISA Process, Crossfire Hurricane Investigation

Senate Judiciary Committee Chairman Lindsey Graham (R-South Carolina) today announced that the Committee would debate and vote on a subpoena authorization related to the FISA abuse investigation and oversight of the Crossfire Hurricane investigation.

The subpoena authorization covers a number of documents, communications and testimony from witnesses, including James Comey, Andrew McCabe, James Clapper, John Brennan, Sally Yates, and others.

The subpoena authorization will be first listed on the agenda for the Committee's executive business meeting on May 21, 2020. The Committee is expected to vote on the subpoena authorization at its June 4, 2020 executive business meeting.

Senate Judiciary Committee subpoena authorizations:

Under the Senate Judiciary Committee rules, the Chairman cannot unilaterally issue a subpoena. The Chairman can ONLY issue a subpoena with the approval of the majority of the Committee, or by a Committee vote.

The subpoena authorization gives the Chairman the ability to issue a subpoena for witnesses, documents, and materials.

Party line votes in the Senate Judiciary Committee are not common. Chairman Graham will use the precedent set by Chairman Lindsey Graham for this subpoena authorization vote. On September 25, 2008, the Committee authorized subpoenas by party line vote.
