To: Flagler County Commissioners

From: Annette Burgess, volunteer applicant AB

Date: September 1, 2015

In my letter of application, I stated that my background with the League of Women Voters was beneficial for a person on the planning board. Since the 1960's the LWV has studied issues of land use, the environment, conservation and housing. I was an active LWV member in Virginia and Maryland and as such have discussed these issues with government bodies.

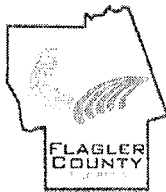

I am personally interested in planned growth. I believe long range planning is more economically sound than haphazard growth and reactionary planning.

Education is my profession. I have worked with pre K- post graduate level students. I have been both teacher and administrator in the U.S., as well as living and teaching in Nicaragua, China and Poland. Currently, I teach a post graduate on line course for Framingham State University and I travel for two week assignments in their Masters of Education, International Education Program. This has allowed me to meet educators in Bolivia, Brazil, Venezuela, El Salvador, Honduras, Thailand, Kuwait, Ukraine and Mariana Islands (Saipan). Consequently, I have been in many cities, used their airports, and seen their public transportation systems.

My husband and I bought our home in March, moved in June. I have no ties to anyone in the county nor any interest in becoming a developer or business owner. In July we joined the Maryland Club, and I will join AAUW later in September.

I have generally tried to be active in the communities I am a part of. I thought I might be able to make a contribution to this community as a volunteer here.

Thank you for your consideration of my application.

August 28, 2015

Dear Flagler County Commissioners:

I am interested in serving on the Flagler County Planning & Development Board, and have submitted my application for your consideration. I wanted to take this opportunity to expand upon my previous experiences serving on boards and projects which I was involved in with the planning staff.

I have served on the Plantation Bay Community Association Board of Directors from 2007 – 2014 and served as Vice President and Secretary for one year each and President for the remaining 6 years. As a member of this all volunteer board, I had the responsibility to enforce the governing documents and architectural standards for our community. In addition, I worked with other board members in developing rules and modifications to existing governing documents as the community's needs and statutory requirements changed over time. Many of our governing documents were written in 1985 and of course since then architectural standards, residents' expectations, demographics and even the way people work have changed. It was important to recognize change is inevitable and to work with all stakeholders to make sure the community is sustainable going forward into the future. As President I provided direct guidance to our Architectural Review Committee to insure that standards were being maintained while working with applicants in a fair and balanced manner so that conflict was resolved in a positive way. This effort required seeking input from our professional staff and on rare occasion, even legal counsel to be sure that we could be somewhat flexible when it made good sense and reach a compromise while following our governing documents.

In 2004 I was very involved with the NOPC (Notice of Proposed Change) to the Development Order for Plantation Bay and worked very closely with Walter Fufidio and his staff due to my support for approval of the NOPC. This application was the result of statutory requirements and changes, as well as proposed development changes to better position the community to be both attractive and competitive going forward. For whatever reason, this application faced quite a bit of opposition, and my meetings with Walter helped many supportive residents to understand the contents of the documents and the associated benefits for the community. The application was ultimately approved. I have met with Adam Mengel concerning easement issues between the Association and other entities within Plantation Bay. In addition, I was involved with and attended a meeting with staff regarding the text amendment to the code which permitted LED signs in gated subdivisions under certain criteria. As a personal research project I have been working on understanding how the Comprehensive Development Plan came about and over the last couple of months have been reviewing all documentation related to the Plan which the Planning Staff provided me.

Thank you for your consideration.

Sincerely,

Kathleen Pounds
