I. Objectives of Selection - The primary objective of the school's educational media center is to implement, enrich, and support the educational program of the school. The center shall provide a wide range of materials on all levels of difficulty, with diversity of appeal, and the representation of different points of view. The School Board asserts that the responsibility of the media center is to provide:

- A. Supplemental materials that will enrich and support the curriculum, taking into consideration the varied interest, abilities, and maturity levels of the students being served.
- B. Materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards.
- C. A background of information enabling students to make intelligent judgments in their daily life.
- D. Materials with multiple perspectives on controversial issues in order that students may develop, under guidance, the practice of critical analysis of all media.
- E. Materials representative of the many religious, ethnic, and cultural groups and their contributions to the heritage and culture of America and the world.
- F. A comprehensive collection appropriate for the users of the media center that places principle above personal opinion and reason above prejudice in the selection of materials of the highest quality.

II. Legal Responsibility for Selection. The School Board is legally responsible for all matters relating to the operation of the Flagler County Schools. The responsibility for the selection of educational media materials, regardless of whether the book is purchased, donated, or otherwise made available to students is delegated to a school district employee who holds a valid educational media specialist certificate. School principals are responsible for overseeing compliance with school district procedures for selecting school library media center materials.

III. Parental Responsibility. Parents shall have the right to review materials in the media center. Parents may fill out the Media Parental Choice form to move their student to a restricted access level. This request will be noted in the student library account for the duration of the school year.

IV. Criteria for Selection of Educational Media Materials

- A. The standards to determine the propriety of the educational materials shall be pursuant to Florida Statutes.

B. First consideration shall be given to the needs of the individual school based on knowledge of the curriculum, of the existing collection, and of the needs of children and youth. Requests from users of the collection, (i.e., administrators, faculty, parents, and students) shall be given high priority.

C. Materials shall be considered on the basis of accuracy of content, overall purpose, timeliness, importance of the subject matter, quality of the writing/production, readability and popular appeal, authoritativeness, comprehensiveness of material, reputation of the publisher/producer, reputation and significance of the author/artist/composer/producer, format and price.

D. In determining the suitability and value of the material included in the collection, consideration of the following elements must be given:

1. Religion. Factual, unbiased material which represents all major religions
2. Ideologies. Factual information on any ideology or philosophy that exerts a strong force in society
3. Sex Education. Factual information, appropriate for the age group or related to the school curriculum
4. Sex. Pornographic, sensational, or titillating materials shall not be included
5. Profanity. The fact that limited profanity appears in material shall not automatically disqualify a selection. However, care shall be taken to exclude materials using profanity in a lewd or detrimental manner and not in context with the material
6. Science. Factual information about medical and scientific knowledge, without any biased selection of facts.

E. Gifts of media or money shall be accepted with the understanding that their use or disposition shall be determined by those persons having the responsibility for acquisitions, according to the same selection criteria and procedures as purchased materials.

VI. Challenged Materials. Library materials deemed by some persons to be objectionable may be considered by others to have sound educational value. Any concerned parent, Flagler County resident or employee of the district may request reconsideration of school library media. When a complaint is made, the following procedure shall be followed:

A. The principal and library media specialist shall discuss the matter informally with the complainant explaining the selection procedures for library media materials. If the complainant accepts the explanation given by the media specialist, the reconsideration process concludes. The principal and media specialist will explain the Media Parental Choice process.

B. If the explanation fails to resolve the objection, the principal will ask the complainant initiating the challenge to file, within two weeks, a formal written objection by completing a "Request for Reconsideration of Library Media" form which must reflect that the complainant has read the material in full. Failure to do so results in the conclusion of the reconsideration process.

- C. Upon receipt of the completed form "Request for Reconsideration of Library Media," the principal shall forward copies to the appropriate personnel on the School-level Review Committee (a committee of teachers, educational media specialists and parents of the school).
