- MAT program available
- Relapse prevention
- On-site AA/NA support group meetings
The Crisis Triage and Treatment Unity (CTTU) is a grant-funded program that collaborates with the local law enforcement, social services agencies, Baker-Act receiving facilities, and regional behavioral health & alcohol/drug treatment providers. CTTU offers several services to the Flagler County Community:

- Transports people who are placed under Baker Act to the nearest Baker Act receiving Facility in Volusia County on behalf of Flagler County Law Enforcement Departments and Advent Health Hospital.
- Ensure law enforcement officers are able to transition a client into CTTU care and be back on patrol within 15 minutes of arrival to the CTTU.
- Provide Crisis Case Management to client who are seeking crisis assistance voluntarily.
- Provide assistance to clients seeking detox services, when detox beds are available.
Services Available:
• Behavioral Health Crisis Screening/Triage
• Baker Act Evaluations
• Marchman Act Evaluations
• Social Service Needs Assessment
• Telephonic and Face-To-Face Information and Referral
• Medical Health Screenings and Referral by Psychiatric RN
• Detoxification Screening and Referral

Length of Stay:
Once CTTU has interacted with a client, the client remains open to the CTTU for 365 days for follow-ups by case management and life skills coaches.

Who is Eligible:
Any person who is in acute mental health crisis and is seeking mental health or substance abuse services are eligible for CTTU services.

CTTU Office: 386-254-1290

CTTU Cell: 386-527-8530
Mental Health Outpatient Services are for adults with severe and persistent mental illnesses and behavioral health needs.

Our services are comprehensive in we work with the entire person including symptom management, relationship building and life management in the community with therapy and life skills being provided.

Med OP services are able to continually assess clients at their visits and refer them to a variety of services based on their needs; which provides clients with a support system and comprehensive approach to their mental health management.

**Services offered:**
- Psychiatric Evaluations
- Brief Behavioral Status Exams
- Individualized Treatment Plans
- Nursing Assessments
- Collaboration with Primary Care Physician’s
- Lab Work
- Individual Therapy
- Community and Internal Referrals
SMA HEALTHCARE
AOP & ADOP (Adult and Adolescent Outpatient)

**AOP:**
Adult Outpatient is for adults 18 years and older who are participating in DUI, dependency drug courts, probation and voluntary.

- AOP Services provide individual and group therapy, individualized treatment plans, treatment plan reviews all by a licensed therapist.
- Family participation in treatment is encouraged, and family educational and counseling services are provided to support the family in the recovery process.

**ADOP:**
ADOP are services for adolescent’s ages 13-18 years old, provided by masters level, licensed and/or certified professional.

- ADOP services include individual therapy with individualized treatment plan and treatment plan review.
- Family involvement with options to include group therapy and other research based approaches to effect a positive change in the client.
- Treatment is specifically directed toward repairing disrupted relationships, reducing impulsivity, developing social and life skills and provide treatment interventions for youth to remain substance free.
• 90 day outpatient program for at-risk and high-service utilizers
• Designed to address gaps in services
• Address a wide variety of issues: mental health, substance abuse, housing, employment, and identifying appropriate resources
• The goal is to assist the client in reducing or eliminating issues for the client that lead to continued use of Crisis Stabilization or Detoxification services as a coping mechanism, or that lead toward suicidality.

• In all four counties:
  - Volusia - 4, Flagler - 3, St. John’s - 1 and Putnam – 1
  - Different funding sources allow serving a variety of population:
    - at-risk and high service utilizers
    - Clients in jail who are currently having suicidal ideations, or have had an ideation or attempt within the last month
    - Adolescents between the ages of 12-17 who have had a mental health or substance abuse crisis requiring a Baker Act or Marchman Act
Who is Eligible:

- Voluntary only
- Anyone who is in jail and had had a suicidal ideation or attempt within the last month
- Any Veteran who does not qualify for VA benefits who have had a suicidal ideation or attempt within the last month.

Services begin upon discharge from jail or VA benefits ending

90 of services; can be extended if deemed necessary

Warm hand off to another service provider, case manager for extended services.

Services Offered:

- Assistance with obtaining community resources
- Medication Management
- Counseling Services
- Employment
- Housing
- Social Security/disability
- Finding transportation for above services
Who is Eligible:
• Adolescents or adults between 12-25, who are in acute mental health crisis

Length of Services:
• Up to 90 days
• Can be extended if deemed clinically necessary
• After 90 days, clients are given a warm hand off to another service provider, or case manager so client is not left without assistance

Services Offered:
• 24/7 availability to contact someone at SMA Healthcare for services for both crisis and non-crisis.
• CTTU assists Flagler County Law Enforcement with transportation of Clients under Baker Acts to nearest Baker Act receiving facility.
• Follow-up care by a Care Coordinator within 48 hours of discharge from crisis unit.
• Care Coordination services.
