Subject: Book Challenge
Attachments: Books for Review in FLAGLER.pdf

Good Afternoon Principles and Media Specialists,

As you know our group has been involved with attending School Board meetings, reviewing curriculum etc. etc. We really, really as I have stated many times - Want to help. We are a large group of concerned Parents, families and citizens of Flagler County.

We have been going through the step by step process online. It is not very easy and is VERY VERY time consuming. I am not sure if parents are emailing all of you individually or not as the process states it must be done. That is only adding to the process and making it take even longer.

All the books on this list have been verified, they are in our schools. They have been read and we have book reports on them.

If there is anything else we can do to keep this process moving please let me know.

Thank you,

Shannon Rambow ~ Chapter Chair
