COMMISSION ON ETHICS

RECEIVED

The Ethics Commission  
P O Drawer 15709  
Tallahassee, FL 32317-5709

RE: Complaint No. 15-134

Commission Members:

The allegation against me to force me to pay attorney fees is, in fact, an attempt to intimidate me and others from filing complaints against persons who have done harm to our county. Malicious intimidation should be yet another form of wrongdoing charged against Albert Hadeed.

It is my civic duty, as a citizen and resident of Flagler County, to bring the substantiated facts previously provided into the sunlight in attempt to make our county better. Malicious intent had nothing to do with my filing.

Mr. Hadeed sat with the Commission on both dates after Revels was found guilty by the Florida Ethics Commission on two counts of FS 112.3143 (3) (a) and did not alert the Board that she had a conflict of interest, as was his responsibility as attorney for Flagler County. **MALICE** is the wasting of \$7,000,000 of taxpayer money to bail out fellow shareholders of Commission member Barbara Revels. He is supposed to represent the 90,000 people of Flagler County, not just the 5 people on the Board of Commissioners.

Had Hadeed done his job, the vote would never have taken place, and the purchase of the old hospital would never have happened, misusing \$7 Million taxpayer dollars.

Sincerely,

  
John Ruffalo
