**Florida's September Employment Figures Released**  
[www.employflorida.com](http://www.employflorida.com)

**TALLAHASSEE** – Florida's seasonally adjusted unemployment rate dropped to 8.7 percent in September 2012, down 0.1 percentage point from August. There were 808,000 jobless Floridians out of a labor force of 9,300,000. The September 2012 rate was 1.7 percentage points lower than the year-ago rate of 10.4 percent. The U.S. unemployment rate was 7.8 percent in September.

Florida's seasonally adjusted total nonagricultural employment was 7,349,800 in September 2012, an increase of 800 jobs (less than 0.1 percent) over the month. The number of jobs in the state was up 63,500 over the year, an increase of 0.9 percent from September 2011. Nationally, the number of jobs was up 1.4 percent over the year.

Source: U.S. Department of Labor, Bureau of Labor Statistics, Local Area Unemployment Statistics Program in cooperation with the Florida Department of Economic Opportunity, Labor Market Statistics Center.

## Florida's Nonagricultural Employment by Industry (Seasonally Adjusted)

- The number of jobs in Florida was 7,349,800 in September 2012, up 63,500 jobs compared to a year ago. September was the 26th consecutive month with positive annual job growth after the state lost jobs for three years. The industry gaining the most jobs was professional and business services (+34,100 jobs, +3.2 percent).
- Other industries gaining jobs included private education and health services (+19,000 jobs, +1.7 percent); trade, transportation, and utilities (+14,800 jobs, +1.0 percent); leisure and hospitality (+12,800 jobs, +1.3 percent); financial activities (+4,500 jobs, +0.9 percent); information (+600 jobs, +0.5 percent); and manufacturing (+300 jobs, +0.1 percent).
- These industry job gains were partially due to increases in employment services; ambulatory health care services; food and beverage stores; accommodation; credit intermediation and related activities; publishing; and food manufacturing.
- Industries losing jobs over the year included total government (-11,300 jobs, -1.0 percent), other services (-6,300 jobs, -2.1 percent), and construction (-5,000 jobs, -1.6 percent).
- These industry job losses were partially due to declines in state government; membership organizations; and heavy and civil engineering construction.

## Local Area Unemployment Statistics (Not Seasonally Adjusted)

- In September 2012, Monroe County (5.0 percent) had the state's lowest unemployment rate, followed by Walton County (5.5 percent), Okaloosa County (5.9 percent), and Franklin County (6.3 percent). Many of the counties with the lowest unemployment rates were those with relatively high proportions of government employment.
- Hendry County had the highest unemployment rate (14.2 percent) in Florida in September 2012, followed by Flagler County (11.9 percent), St. Lucie County (11.7 percent), and Indian River County (11.3 percent). Seasonal weakness in agriculture and related industries contributed to the high unemployment rate in Hendry County. There were 12 Florida counties with double-digit unemployment rates in September, down from 16 in August.

## Area Nonagricultural Employment (Not Seasonally Adjusted)

- Twelve metro areas of the 22 in the state had over-the-year job gains in September 2012. The areas with the largest gains were Orlando-Kissimmee-Sanford (+18,800 jobs, +1.9 percent), Tampa-St. Petersburg-Clearwater (+11,900 jobs, +1.0 percent), and Miami-Miami Beach-Kendall (+6,400 jobs, +0.6 percent).
- Of the metro areas with job declines, the largest losses were in Cape Coral-Ft. Myers (-3,000 jobs, - 1.5 percent), Gainesville (-2,800 jobs, -2.2 percent), Port St. Lucie (-2,800 jobs, -2.3 percent), and Pensacola-Ferry Pass-Brent (-2,700 jobs, -1.7 percent).

**Note:** These unemployment and job growth rates are estimates, which are primarily based on surveys created and mandated by the U.S. Bureau of Labor Statistics in cooperation with the Florida Department of Economic Opportunity.

The unemployment rate is derived from Florida household surveys conducted by the U.S. Census Bureau under contract with the U.S. Bureau of Labor Statistics. The job growth rate is derived from Florida employer surveys conducted by the U.S. Bureau of Labor Statistics.

Both estimates are revised on a monthly basis. In addition, these estimates are benchmarked (revised) annually based on actual counts from Florida's Reemployment Assistance tax records and other data.

Procedures mandated by the U.S. Bureau of Labor Statistics may result in more variable month-to-month changes. For further information, go to: <http://www.bls.gov/sae/cesprocs.htm>

###

The mission of the Florida Department of Economic Opportunity is to promote economic prosperity for all Floridians and businesses through successful workforce, community, and economic development strategies. Please visit [www.floridajobs.org](http://www.floridajobs.org) for more information.

The next Florida Employment and Unemployment release will be November 16, 2012, at 10:00 A.M.
