

# COVID-19: summary of persons monitored, persons tested, and cases

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

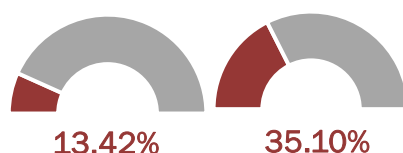

Monitored persons: people the Florida Department of Health was notified of for possible monitoring because they are a contact of a case, traveled from China, or were identified by the Centers for Disease Control and Prevention (CDC) as a part of an airline/ship contact investigation

<b>Total reports</b>	<b>203,722</b>
Total persons of high, medium, or unknown risk	200,061
High/medium/unknown risk still being monitored	13,778

Persons tested: includes PCR and antigen test results received by the Department of Health from the state public health laboratory (BPHL), as well as commercial and hospital laboratories

	Florida residents	Non-Florida residents
Total tested	4,587,076	19,492
Positive	614,753	6,833
Negative	3,965,385	12,637
Inconclusive	6,938	22
Awaiting testing	3,468	29

Cumulative percent positivity (based on positive and negative results from March 1 - present)

Cases: people with positive PCR or antigen test result

<b>Total cases</b>	<b>621,586</b>
Florida residents	614,753
Non-Florida residents	6,833
<b>Type of testing</b>	
Florida residents	614,753
Positive by BPHL/CDC	22,195
Positive by commercial/hospital lab	592,558
PCR positive	606,336
Antigen positive	8,417
Non-Florida residents	6,833
Positive by BPHL/CDC	238
Positive by commercial/hospital lab	6,595
PCR positive	6,575
Antigen positive	258

**Characteristics**

Florida residents hospitalized	38,410
Florida resident deaths	11,119
Non-Florida resident deaths	144

Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at [www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm](http://www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm).

**Risk factors for Florida residents**

Traveled	4,752
Contact with a known case	204,302
Traveled and contact with a known case	5,004
Neither	400,695
No travel and no contact	73,036
Travel is unknown	244,666
Contact is unknown	145,712
Contact is pending	165,616

Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.

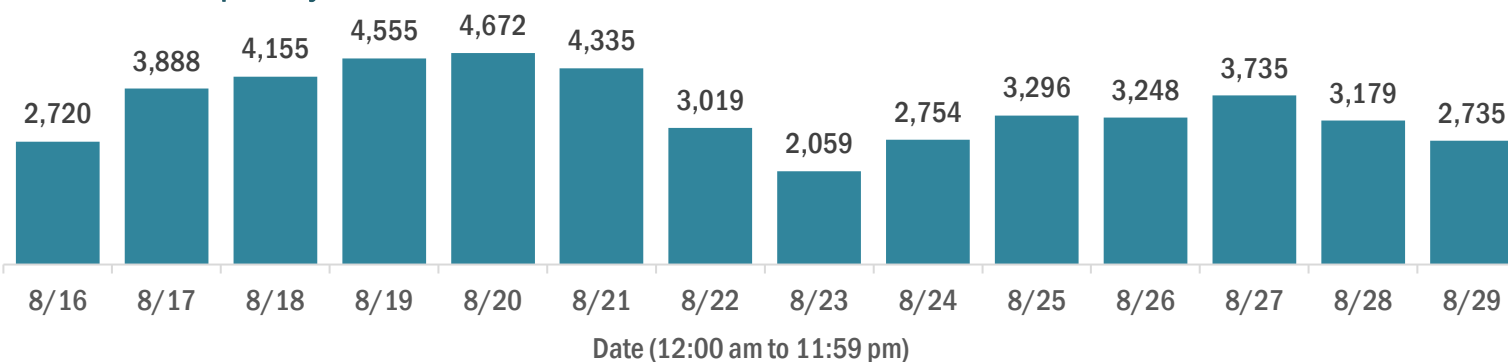

# COVID-19: cases and laboratory testing over time

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

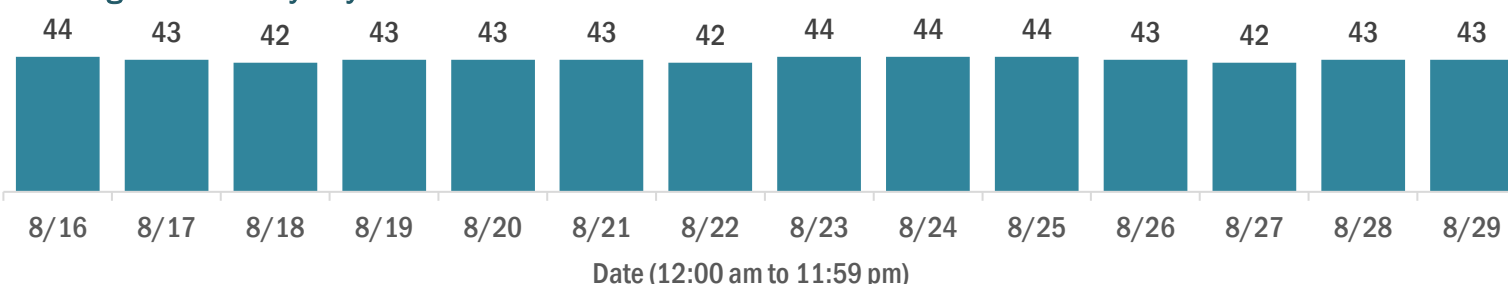

Data in this report are provisional and subject to change.

## Cases in Florida residents per day for the past 2 weeks

### Number of cases per day

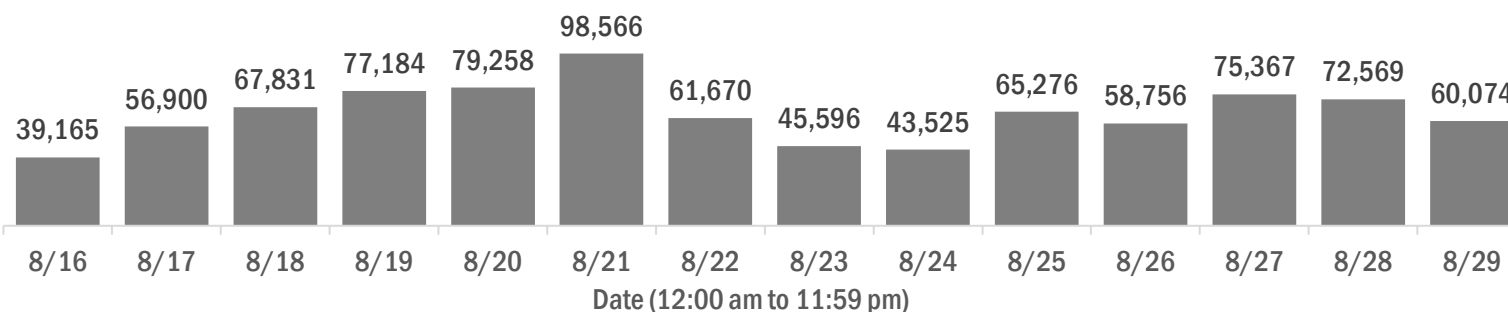

### Median age of cases by day

## Laboratory testing for Florida residents over the past 2 weeks

### Number of Florida residents tested per day

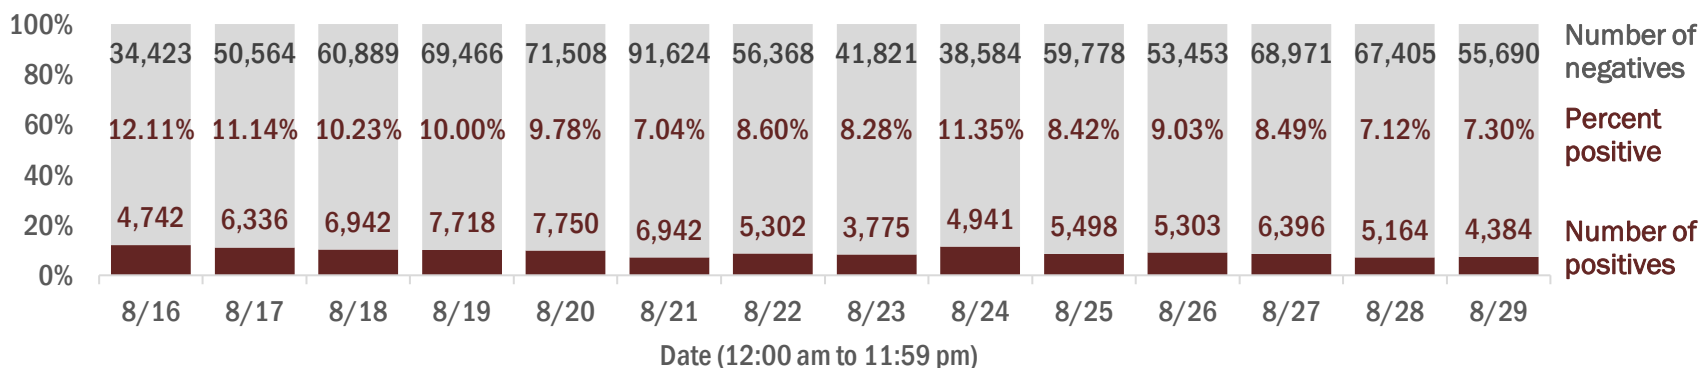

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

### Number and percent of Florida residents with positive test results

The percent of positive results ranged from 7.04% to 12.11% over the past 2 weeks and was 7.30% yesterday.

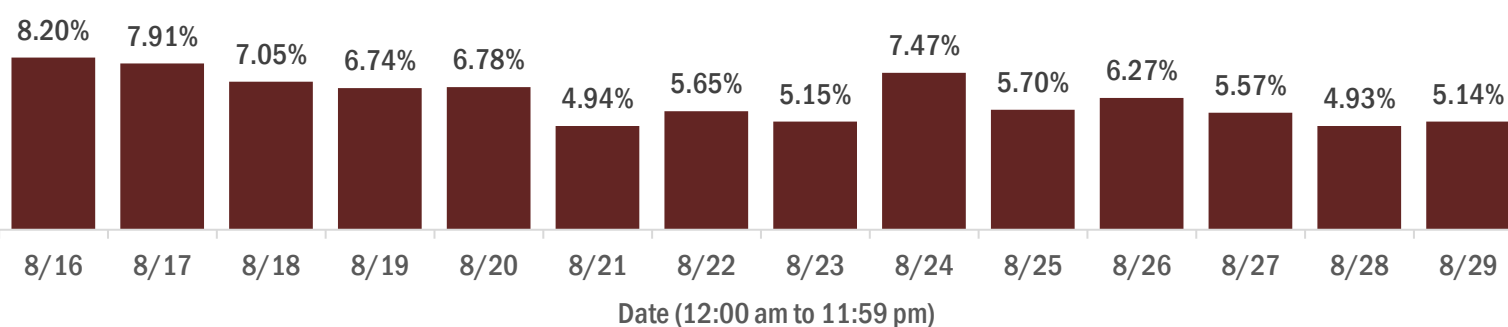

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

### Percent positivity for new cases in Florida residents

The percent of positive results ranged from 4.93% to 8.20% over the past 2 weeks and was 5.14% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

# COVID-19: characteristics of 614,753 Florida resident cases

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

# COVID-19: additional surveillance information

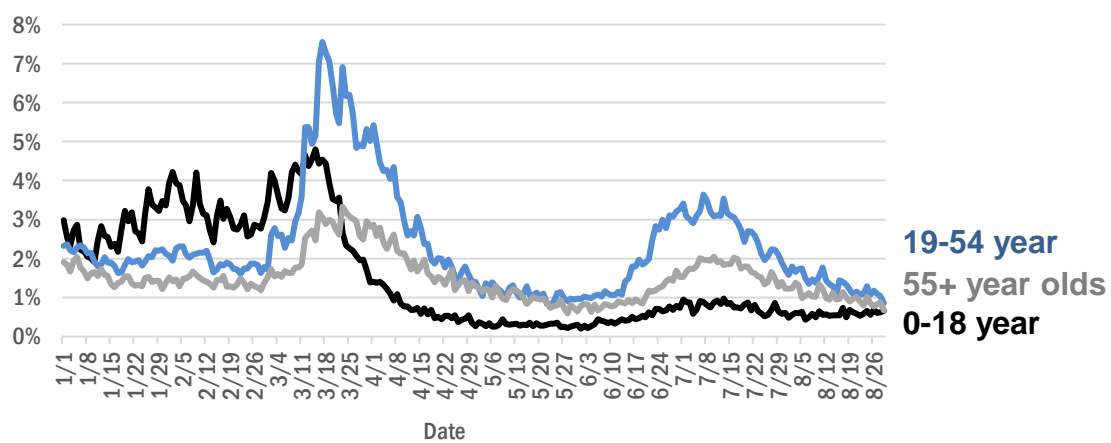

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Statewide emergency department (ED) chief complaint and admission data

## Daily percent of ED visits statewide that mention cough by age group

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 212 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

# COVID-19: All Florida residents with test results reported

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The table below includes persons with laboratory results that the Department of Health has received electronically or by mail/fax for Florida residents.

# COVID-19: testing by laboratory

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Aug 29, 2020 verified as of Aug 30, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
