Florida's November Employment Figures Released

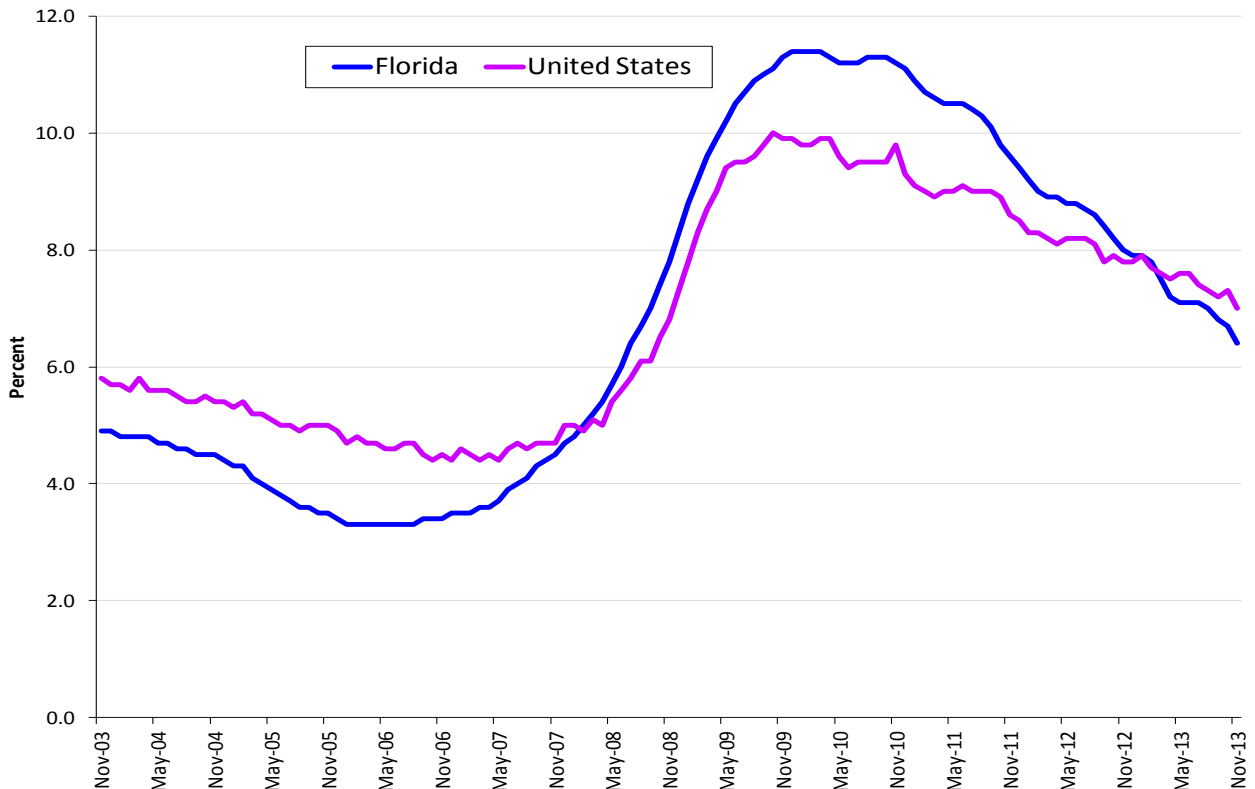

www.employflorida.com

TALLAHASSEE – Florida's seasonally adjusted unemployment rate was 6.4 percent in November 2013, down 0.3 percentage point over the month, and down 1.6 percentage points from 8.0 percent a year ago. The state's November rate was the lowest since July 2008 when it also was 6.4 percent. There were 599,000 jobless Floridians out of a labor force of 9,395,000. The U.S. unemployment rate was 7.0 percent in November. Florida's unemployment rate was 0.6 percentage point lower than the U.S. rate and was below the national rate for the ninth consecutive month.

Florida's seasonally adjusted total nonagricultural employment was 7,627,400 in November 2013, an increase of 6,100 jobs (+0.1 percent) over the month. Compared to November a year ago, the number of jobs in the state was up by 183,100, an increase of 2.5 percent. Florida's annual job growth rate in October and November 2013 was the fastest since June 2006. Nationally, the number of jobs was up 1.7 percent over the year. Florida's annual job growth rate has exceeded or been equal to the nation's rate since March 2012.

United States and Florida Unemployment Rates (seasonally adjusted)

Source: U.S. Department of Labor, Bureau of Labor Statistics, Local Area Unemployment Statistics Program, in cooperation with the Florida Department of Economic Opportunity, Bureau of Labor Market Statistics.

Florida's Nonagricultural Employment by Industry (Seasonally Adjusted)

- The number of jobs in Florida was 7,627,400 in November 2013, up 183,100 jobs compared to a year ago. November 2013 was the 40th consecutive month with positive annual job growth after the state lost jobs for over three years. The industry gaining the most jobs was trade, transportation, and utilities (+56,800 jobs, +3.7 percent).
- Other industries gaining jobs included professional and business services (+38,700 jobs, +3.6 percent); leisure and hospitality (+29,100 jobs, +2.9 percent); construction (+24,300 jobs, +7.0 percent); private education and health services (+21,800 jobs, +1.9 percent); financial activities (+8,300 jobs, +1.7 percent); manufacturing (+3,300 jobs, +1.0 percent); information (+3,200 jobs, +2.4 percent); and other services (+2,600 jobs, +0.8 percent).
- These industry job gains were partially due to increases in food and beverage stores; employment services; food services and drinking places; specialty trade contractors; ambulatory health care services; real estate; fabricated metal product manufacturing; publishing industries, except internet; and personal and laundry services and membership associations and organizations.
- Total government (-5,000 jobs, -0.5 percent) was the only major industry losing jobs over the year, with both federal and state government contributing to the loss.

Local Area Unemployment Statistics (Not Seasonally Adjusted)

- In November 2013, Monroe County had the state's lowest unemployment rate (3.7 percent), followed by Walton County (4.0 percent); Okaloosa County (4.5 percent); and Alachua and St. Johns counties (4.9 percent each). Many of the counties with the lowest unemployment rates were those with relatively high proportions of government employment.
- Hendry County had the highest unemployment rate (11.3 percent) in Florida in November 2013, followed by Flagler County (9.2 percent), Putnam County (8.4 percent), Madison County (8.3 percent), and St. Lucie County (8.2 percent). Hendry County had the highest unemployment rate in the state in November, mainly due to long-term job losses in government employment. Hendry was the only county in Florida with double-digit unemployment in both October and November.

Area Nonagricultural Employment (Not Seasonally Adjusted)

- Twenty of the 22 metro areas in the state had over-the-year job gains in November 2013. The areas with the largest gains were Tampa-St. Petersburg-Clearwater (+39,300 jobs, +3.3 percent), Orlando-Kissimmee-Sanford (+28,900, +2.7 percent), and Ft. Lauderdale-Pompano Beach-Deerfield Beach (+17,700 jobs, +2.4 percent).
- The two metro areas that lost jobs over the year were Panama City-Lynn Haven-Panama City Beach (-1,600 jobs, -2.3 percent) and Palm Coast (-200 jobs, -1.0 percent).

Note: The unemployment and job growth rates are estimates, which are primarily based on surveys created and mandated by the U.S. Bureau of Labor Statistics in cooperation with the Florida Department of Economic Opportunity.

The unemployment rate is derived from Florida household surveys conducted by the U.S. Census Bureau under contract with the U.S. Bureau of Labor Statistics. The job growth rate is derived from Florida employer surveys conducted by the U.S. Bureau of Labor Statistics.

Both estimates are revised on a monthly basis. In addition, these estimates are benchmarked (revised) annually based on actual counts from Florida's Reemployment Assistance tax records and other data.

Procedures mandated by the U.S. Bureau of Labor Statistics may result in more variable month-to-month changes. For further information, go to:

The mission of the Florida Department of Economic Opportunity is to promote economic prosperity for all Floridians and businesses through successful workforce, community, and economic development strategies. Please visit www.floridajobs.org for more information.

The next Florida Employment and Unemployment release will be January 24, 2014, at 10:00 A.M.
