 - » Practice generator safety and stay away from downed power lines

NATIONAL WEATHER SERVICE
JACKSONVILLE, FL

ISSUED: Friday, September 27, 2024 7:40 AM

After the Storm: **HAZARDS REMAIN**

Be careful near damaged buildings

Do not enter a damaged building until local authorities say it's safe. Leave your home if there's shifting or unusual noises. If you smell gas, get outdoors immediately and call 911.

Watch out for power lines

Stay far away from damaged power lines, whether they've fallen to the ground or are dangling overhead.

Don't walk or drive through floodwaters

They can contain harmful bacteria, chemicals, sharp objects, live wires and reptiles/other animals. It only takes 12 inches of fast-moving water to sweep a car away.
