To Judge Foxman

Hello Your Honor. My name is Joseph Westervelt. I'm writing in regards about my case that is pending. I am asking if you can please have a open heart and opinion on this matter.

I first want to say I have a very bad drug problem and had one for many years. I know if I was not addicted to all these drugs, this situation would have never accured. Right now I am sitting in jail and they did make me a offer but I believe being in jail is not the right place for me to get the proper treatment I need for my addiction. So I am turning to

you your Honor for help. I want to get better and be a better and more productive individual in life. I have a fiance out there who is almost 8 months

pregnant and the baby is due may 11th. I know with out me she is going to struggle with lifes

needs for her and my child. So I am asking for an inpatient program to help me overcome my drug

problem and to keep me clean and sober. I want a chance to prove to you and also myself I can do

this for a better future for me and my soon

to be family. Being in here or going to prison is

not at all going to help my situation with the

drug problem I have. I dont want to walk out

of prison with no education on how to work

a Program to keep myself clean and sober.  
I really want to get better Your Honor because,  
if I don't get the proper help I believe I  
won't have as good a chance than if I do get the  
proper help when I do get released. So please  
Your Honor, I am asking you once again to help  
me better myself for my family sake. I  
am truly sorry for taking up your time and  
I am grateful you took a minute to read this  
letter. It is appreciated very much.  
Thank you Sir for your time and concern on  
this matter

Sincerely  
Joseph Westervelt
